The Project includes activities to strengthen bridge girders and floor beams; provide additional bracing; repair the bridge rail; remove surface rust and paint and repaint; and replace deck joints. The location of the Project is shown on the sketch map attached hereto, marked "Exhibit A," and by this reference made a part hereof.
2. The total Project cost is estimated at \$7,819,800.00, which is subject to change. Federal funds for the Project shall be limited to \$7,016,706.54. Agency shall be responsible for all remaining costs, including any non-participating costs, all costs in excess of the federal or state funds, and the 10.27 percent match rate for all eligible costs. Any unused federal or state funds obligated to the Project will not be paid out by State, and will not be available for use by Agency for this Agreement or any other projects. State shall reimburse approved Agency invoices at one hundred percent (100%). All costs beyond the federal and state reimbursement and any non-participating costs are the responsibility of Agency and will not be reimbursed by State. State shall invoice FHWA and Agency for work provided as part of the Project. Agency agrees to reimburse State for work performed for the Project upon receipt of invoices. 32. Agency grants State or others designated by State the right to enter onto Agency right of way for the performance of duties as set forth in this Agreement.
33. Agency certifies and represents that each individual signing this Agreement has been authorized to enter into and execute this Agreement on behalf of Agency, under the direction or approval of its governing body, commission, board, officers, members, or representatives, and to legally bind Agency.
34. This Agreement may be executed in several counterparts (facsimile or otherwise) all of which when taken together shall constitute one agreement binding on all Parties, notwithstanding that all Parties are not signatories to the same counterpart. Background on FFATA Requirements

The FFATA was signed on September 26, 2006. The intent of the Act is to empower every American with the ability to hold the government accountable for each spending decision. The end result is to reduce wasteful spending in the government. The FFATA legislation requires information on federal awards (federal financial assistance and expenditures) be made available to the public via a single, searchable website, which is www.USASpending.gov.

Definition of Compensation

Your organization is considered a subrecipient of federal funds. Unless your organization is exempt, FFATA requires you to report total compensation for each of your five most highly compensated executives for the preceding completed year. Total compensation means the cash and non-cash dollar value earned by the executive during the subrecipient's preceding fiscal year and includes the following: salary and bonus; awards of stock, stock options, and stock appropriation rights; earnings for services under non-equity incentive plans; change in pension value; above-market earnings on deferred compensation which is not tax-qualified; and other compensation as defined in 2 CFR Part 170, Section 170.330(b)(5)(vi).

More detailed information about the FFATA can be found at: <http://edocket.access.gpo.gov/2010/pdf/2010-22705.pdf>

Project Change Request (PCR) Process - Agency must obtain approval from State's Bridge Engineer for changes to the Project's scope, schedule, or budget by submitting a PCR, as specified in Paragraphs 5a, 5b, and 5c below. Agency shall be fully responsible for all costs attributable to changes to the established Project scope, schedule, or budget made prior to an approved PCR. An Amendment to this Agreement may be required to implement any approved PCR that results in a scope change, a change in the amount of federal or state funding available for the project, or other changes as determined by ODOT.

Amendments must be executed by the same officials who executed the original Agreement, subject to any other approvals required by law.

RE: Marion County Consultant Selection Certification & Demonstration Evaluation Results, Formal and Informal Procurements

Dear Ryan,

This letter is to notify you of the successful evaluation results of Marion County's January 14, 2020 demonstration of its formal consultant selection process on the Lancaster Drive: Center St – Monroe Ave project (KN 20745) project. See the attached June 10, 2020 letter with certification recommendations from the ODOT Procurement Office. Congratulations on the successful evaluation and certification in formal and informal consultant selection processes!

We note that ODOT previously approved County's certification in the direct appoint/small purchase process on May 19, 2015, which means the County is now fully certified in consultant selection (formal, informal, and direct appoint/small purchase processes). Please note, certification in consultant selection does not authorize the County to issue work order contracts against ODOT price agreements.

As a reminder, please ensure the County's consultant contracts on federal-aid projects are administered in accordance with the contract administration processes set out in section 3.7 of the *LPA A&E Requirements Guide*. Also, take note of the DBE-related forms and procedures requirements in 3.4.2 and the documentation requirements in section 4. Compliance with the consultant selection and contract administration requirements set out in the guide is subject to ODOT Certification Program review (see subsection I. on Maintaining Certification in Section B of Local Agency Guidelines manual).

Thank you again for the time and effort Marion County staff put into thoroughly preparing for your agency's formal consultant selection presentation and for providing well-organized documentation.

Sincerely,
