A message from the Clerk . . .

Dear Marion County Voters,

This special district election, you will be choosing people to represent your interests on school, fire, water, library, and recreation district boards. When you study the statements of the candidates in your district, you not only get help in determining your selection, but you also get a better picture of how each of these district boards strives to better our communities. We are truly thankful for each of these candidates, who willingly come forward, offering their time and talent in service to us. These are all unpaid, volunteer positions.

While reading these candidate profiles, please ask if there is a way you would like to serve with these boards, whether elected, or otherwise. Our community depends on volunteers in many ways. This includes a myriad of organizations and roles, including firefighters, teachers, mentors, coaches, sponsors, supporters, and those that lend a hand to a neighbor. Volunteerism significantly defines our communities and their values.

If you have any questions or concerns about this election or the election process, as always, please contact the Marion County Clerk's Election office. If you are a registered voter and have not received your ballot by May 2nd, please contact us right away. This pamphlet is available in MP3 audio on our website and cassette tape or CD by mail.

Help make democracy work. Become informed, and vote.

Sincerely,

Bill Burgess
Marion County Clerk

PRIOR GOVERNMENTAL EXPERIENCE:

1999 to Present: Chemeketa Community College Board of Education

2006 to Present: WESD School Board

2005 to Present: E3 Enterprise Board for Employment and Education

My thirty-five plus years of working in a variety educational settings and levels provides me with the background to assist in planning to meet the needs of the students and communities served by Chemeketa. I have a belief and passion that all students and members of society should have an opportunity to receive the education and training that will benefit themselves, their families and allow for a positive return to society and their communities. Not all students want to attend four-year universities, but all students deserve to receive additional training to improve their lives.

There is a growing need to provide more and improved professional technical programs in this region. The increasing average age of welders, plumbers, construction workers, home builders and other professional technical employees makes it critical that we address these programs.

An increasing number of high school students plan four-college degrees that include the community college in their plans. These transfer students can further benefit from the community college working to improve programs and the transfer process to the four-year institutions.

I would be honored to continue the work on these opportunities for the students and communities of the Chemeketa region.

Hello, I am Garth King. I have been a Silverton resident for 13 years. My family came to Silverton because of the excellent educational reputation and leadership of the Silver Falls School District.

I am enthusiastic about contributing to the vision of the district and am willing to commit the time to ensure that the community gets a good listener and a person resolved to forge a strong link between the Board and the citizens it serves.

I am an open and strong advocate for the children in our district and want to be a part of the body that collaborates with the decision makers for them. Now that the bond measure for the completion of the high school and various other school projects has been approved, and planning stages are well underway, it is the accountability of the board that will reassure the families that are paying for it, that they have done the right thing. I will be an advocate for prudent use of those monies.

I want your vote to be Silver Falls School District Board Member for Zone 7.

PRIOR GOVERNMENTAL EXPERIENCE:

Scotts Mills School Board and Budget Committee

Service on the School Board will allow me to fulfill the desire I have to reciprocate to the Silver Falls School District and the unified communities, which comprise our district, for providing my children twenty-three continuous years of quality public education. We all have a duty to ensure that future generations who grow in our community receive equivalent if not superior educational opportunities to those provided our students today. We must retain notable educators and provide an educational culture that attracts other inspiring and highly qualified teachers and staff to our district.

My education and employment experience qualify me to define, guide, and interpret Silver Falls District policies. If elected, I will bring strong analytical skills as well as my abilities to ask probing questions, to negotiate effectively, and to creatively but fairly solve complex problems to the issues the Board addresses.

In the immediate future the School Board must prudently marshal bond funds approved for high school construction. When this exciting project is completed, prudent oversight of the district's other assets, specifically its real estate and building facilities will still be required. My service on the Scotts Mills School Board and Budget Committee prior to district unification provided excellent training in fiscal management of a school district challenged by limited resources.

However, the Silver Falls School District cannot lose sight of the fact its most valuable assets are its students. We measure ourselves as a district by the achievements of our students. Accordingly, I hope to promote an educational atmosphere that nurtures rather than deters achievement and encourages ambition and talent in all the various forms found among our diverse student population.

PRIOR GOVERNMENTAL EXPERIENCE:

No related positions.

My business is located in Aumsville, Oregon, and I currently live in the Aumsville/Shaw area. I am excited to have the opportunity to raise my children in the same school system that I attended as a boy. My father, Chuck Baker, was a teacher in the school system and instilled the value of education in our family.

I wish to continue the strong curriculum the Cascade Board of Education has established in its well-balanced education program including academia, arts and extra curricular activities such as sports and clubs/organizations. Community input and resources are essential in running a successful school district. It is important to maintain our school facilities and keep our buildings in excellent condition. As a partner in the community I helped the district review its needs prior to the bond issue and have followed the plans through the construction phase.

Cascade is the largest employer within the boundaries of the school district. Not only is it important to listen to the community I feel that communication with the staff is also necessary. I tend to be conservative with finances and want to make sure the district spends wisely and with discretion.

My goal is to support Cascade's community with the necessary time and effort needed for this position. Thank you for your support.

I am uniquely qualified to serve the people of Cascade. If elected, I know that I can have a positive impact on the Cascade School District. One of the primary duties of a school board member is the stewardship of the taxpayers' money. I have spent my entire adult life in the money business. Those that know me would describe me as outspoken, direct, and honest. These qualities will help bridge the gap between the school board and the community.

I feel strongly about Cascade and the people that make it so exceptional. The people of the Cascade School District deserve the best. From academics, to teachers, to administrators, to athletics, to activities our goal is simple: Be the best in the state of Oregon.

I would like to serve on the Cascade School Board to help ensure further advancement of educational opportunities for the children of Cascade School District.

I believe schools are the foundation for our future, preparing our children for future careers, and strengthening our community. Today's school districts face many challenges, changing technology, aging buildings and decreased school funding. Teachers are left to do more with less; we need to ensure our teachers are getting training they need and quality curriculum to teach our kids. We must work together to make sure our children receive the opportunities they need to succeed.

Athletics play a huge role in a child's development helping to promote self confidence, responsibility and accountability. I'll support and help improve Cascade's Athletics' in any way possible.

With my background in budget, finance, property taxation, and vast experience in policy development and implementation. I will help ensure that the board is being fiscally and statutorily responsible. Serving on the Jefferson School Board as well as the High School Site Council has provided me with great insight on the needs of the Jefferson School District. With our tight budget, it is important to make decisions that will produce successful, well-rounded students.

I have volunteered in the Jefferson School District for the past 17 years, having the pleasure to work with the students as well as staff and parents at all three schools. Building relationships with the students, families and staff is essential in a small community.

As a school board member my goal is to increase student achievement, engage community participation, and encourage accountability, with a focus on team work. PRIOR GOVERNMENTAL EXPERIENCE: North Marion Elementary Advisory Board, Budget Committee, Facilities Planning, Director

My wife and I have been residents of the North Marion School District for over 25 years. We have a 13 year-old in the Middle School and a graduate of North Marion attending Portland State. I have served as a board member for 13 years and have found it to be both challenging and fulfilling. Much has been achieved with curriculum and student performance, bond approval, fiscal controls, technology advances, community outreach, and a stable administration. I would like to continue these efforts and my commitment to the District's mission of providing a quality education for our children. The District continues to face challenges to this goal - tight funding, safety and security concerns, facilities condition, federal program mandates, and community changes. It requires a continued partnership of parents and community with the District, so together we can work on our children's education and their preparation for the future.

I will work to encourage communication, ask the tough questions, and outreach to the community. I will use my experience in business and budgets, my technical training, my technology background, and my passion for quality public education. I will be available to parents (and students) and patrons to foster their involvement, convey your ideas, and represent your concerns for the future of the District.

I appreciate your support and thank you for the privilege to serve.

I have been on the North Marion School Board since 1992 (15 years). I have served on the WESD (Willamette Educational Service District) budget committee.

It has been a privilege to serve these past six years on the North Marion School Board. I believe in the power of education and the advantages of involvement in our one campus school community. We continue to create the best learning environment and prepare our students for post graduate life, whether that is: college, trade school or the work force.

I am ready to meet the challenges that School District's face. I believe that as a returning member, I have the experience as well as qualities to serve and meet these challenges. The board has set goals to strive for: improved student performance, improved communication, preparation for growth, and to promote accountability with in our professional learning community. We are currently involved in a facility review process to evaluate our needs for maintenance, growth and the needs pertaining to our changing world. Through the Oregon School Board Association, the board is involved in the Bridges to Achievement project in which we are evaluating and training to improve our leadership. A Strategic Plan has also been developed which will guide us toward continued improvement over the next 5 years. My experience as an existing Board member has taken me through positive and challenging times including: the budget process, personnel changes and employee negotiations.

When I first joined the School Board, the state was in a budgetary crisis and many aspects such as school days, had to be cut to balance the North Marion budget. Fortunately these are exciting times at North Marion School District as we look forward to a more stable budget. I will make sound decisions and work toward improvements to meet our goals of success and growth for all students.

I challenge all community members to be involved, become a volunteer, or attend a school activity so we can showcase the wonderful things the students are doing.

As a current Board member, I would like the opportunity, once again, to help make a difference in the North Marion School District.

PRIOR GOVERNMENTAL EXPERIENCE:

Salem-Keizer School Board

EXPERIENCED KNOWLEDGEABLE PASSIONATE HARD-WORKING

I am seeking reelection to the School Board to continue our momentum toward improved education for our students.

In my 8 years on the Board, our district has faced annual cuts in real dollars. The Board has pursued a prudent fiscal path, working to preserve classroom instruction and maintaining our own rainy-day fund in the absence of a state one. We successfully completed a large capital improvement bond within budget, building a new high school, middle school, and several elementary schools, as well as making need improvements to nearly all our other schools.

Despite better economic conditions, we face several challenges:

- Improving student achievement—for ALL our kids
- Addressing overcrowded schools (we are growing at the equivalent of one to two elementary schools annually)
- Reducing the backlog of deferred maintenance
- Dealing with the lack from the state level of long-term stable and adequate funding
- Educating an increasingly diverse student population

My career as a teacher, both at the high school and as an adjunct professor at the university level, and my years on the School Board make me uniquely qualified for re-election. I am passionate about our community and the success of its young people!

COMMUNITY ACTIVITIES:

- Director, Salem-Keizer School Board

- East Salem Rotary
- Area coordinator for Rotary Dictionary Project (a dictionary for every 4th grader)

PRIOR GOVERNMENTAL EXPERIENCE:

22 years of public service.

I hope you believe as I do, that the Salem/Keizer School District cannot keep doing the same things in the same way expecting different results. I also believe the buck stops with people who serve in positions of leadership and here, in large part points directly to School Board members. If you agree with me, that past results have not been acceptable using any reasonable standard, then we cannot afford those same results, then I ask for your vote.

The experience I bring to the table includes understanding accounting and budget documents and at my "day job" I am responsible for being fiscally responsible. I have developed effective communication skills that can be used as I interact with parents, kids, other School Board members and district staff.

Frankly speaking, this comes down to two things.....common sense and commitment, and as a new School Board member I promise both.

I believe that we can be fiscally responsible and sustainable in a way that respects children, parents, staff and the community. This will take leadership, fresh thoughts, and ideas, and a willingness not to except anything less.

We need to concentrate on the future and that starts with changes in leadership. I hope you'll agree with me when I say, that is simply not acceptable.

Please join me in voting for higher achievement for our children and our community. I cannot do it for you but I can do it with your help and support.

I would like to serve on the school board because I want children in the North Santiam School District to receive the best education possible in our schools; and I want parents, patrons and staff to be involved in decision-making for their schools and students. Together, the Lyons, Stayton, and Sublimity communities can create great learning environments for children and youth.

My years of experience in education help me understand what is needed to provide quality learning experiences for all students. I will help insure that the district develops and maintains policies and practices that best allow all students to achieve at the highest levels.

Planning for the future is critical. Our communities are growing and so is our student enrollment. We need to build more schools to relieve those that are over-crowded and renovate the existing schools to accommodate today's curriculum requirements and high achievement standards for students and staff.

If you share my vision, please vote for me for school board member. Thank you.

OCCUPATION: Operations Manager at a local bank.

EDUCATIONAL BACKGROUND: General, Business College

PRIOR GOVERNMENTAL EXPERIENCE: North Santiam School District 29-J.

My main focus on being on the North Santiam School board is what I can do to help better our kid's educational future.

I am interested in doing what I can to help each child be successful, no matter if it is their first day of Kindergarten or their first day as a senior. I am interested in helping provide a warm, safe environment. If a child does not feel welcome or safe at school, they will not learn. They will not thrive. My decisions that I make at the school board is based on two thoughts. "Is this the right decision for all our kids, and how will it impact their educational needs."

I not only care about my children's education, but I also care about the their friends and classmates and I want to see them achieve and be ready for the technology that is among us and make sure that all our students have the same opportunity to succeed and learn and be better prepared for what might lie in the future.

EDUCATIONAL BACKGROUND: High School Diploma, Woodburn High School
PRIOR GOVERNMENTAL EXPERIENCE: None

I am applying for this position because Woodburn School District enrollment is over 65% Hispanic. I believe that as a Hispanic member of the community I could reach out and bring out the family core values that are needed and currently underrepresented in the school board. Thus, I would be able to connect and communicate with the student and family populations.

I was born in Silverton, Oregon and raised in Woodburn, Oregon. I grew up next to Bethlehem Village off McKee Rd. and with a lot of people from the Russian community. I respect their family values and I've seen their population grow along with the Hispanics here in Woodburn. I know what it's like to work in the fields to make ends meet.

My father taught me how important it is to help the elderly in our community as he would take me to Senior Estates to volunteer by mowing yards and taking garbage out for the people who couldn't do it due to disability or age.

My favorite pastime is spending time with my family, my mother Maria, brothers and sisters, Miguel, Sam, Belinda, Frances, and Angela, my wife Cherlyn, my step-daughters Eileen, Velma, Valerie, and Judy, my daughter Crystal and the baby of the family, Mitchell. I also enjoy spending time with members of my church at St. Luke's in Woodburn. My hobbies are fishing with my brother Miguel, watching football, goofing around with an old friend Garry, and riding motorcycles.

EDUCATIONAL BACKGROUND: Lewis & Clark, post graduate work in Educational Administration; Portland State University, study with Masters in Education cohort; Oregon College of Education, Bachelor of Science and post graduate work in Library Media.
PRIOR GOVERNMENTAL EXPERIENCE: Appointed to Woodburn Schools Strategic Planning Committee and Action Planning Team; Woodburn Schools Technology Committee; Woodburn WCAT Cable Access Board.

In the late 1960's, I watched the Woodburn School Board work to pass a new tax base and then a building bond issue. However, I only stood on the sidelines for a short time. I attended meetings and worked to raise funds for advertising and information campaigns. I visited with members of the community to share the importance of supporting these ballot measures. Our efforts were successful. Over the last 40 years, I have served on a variety of board and staff appointed committees and task forces.

I recently retired as a full-time teacher in Woodburn School District, but I continued to substitute in the district. Now is the time to step into the next phase of active participation in the Woodburn school system as a school board director. I believe I will make positive contributions to the decision making process that makes Woodburn Public Schools one of the best in the State of Oregon. We have more to do to make our efforts the very best for every student.

Recent decisions in state funding have made doing our best very challenging.

However, this district's strategic plan guides the board decisions and the administrative and staff strategies for implementation. The community and parent support for their students and the work of school staff creates energy to make the very best of what we have.

PRIOR GOVERNMENTAL EXPERIENCE: None

Over the past 14 years it has been my pleasure to serve the community of Woodburn through my employment with Woodburn Fire District, civic organizations, Woodburn Together, Exchange Student Program and supporting local youth activities. I graduated from Woodburn High School 15 years ago, I have had hosted 10 exchange students who have attended Woodburn High School and I have watched my son grow up in the very same school district that afforded me so many opportunities.

I would like to continue that service to the community by running for School Board. I believe my passion to serve, dedication and commitment married with my public service experience makes me an ideal candidate for School Board.

I am confident that I will bring a fresh perspective to the board that will allow me to work together with the school board to face the challenges ahead and deliver the best possible education and services to our students. Woodburn School District is a growing thriving school district. I would be proud to serve in this position.

As a former board member for Marion County Fire District #1, I am concerned about the increasing trend of privatizing services for the community. Two such examples: EMS subcontracting, and retaining control of our publicly owned equipment and property maintenance. We need to remain our autonomy as a community rather than allow our community to be decimated by the annexation at the will of the City of Salem. The urban growth boundary used to be far distant from the city limits; today it is the city limits in several places. This is an immediate threat to the survival of the rural fire protection district. I would encourage efficiency in government thru proposing mergers and consolidation and other forms of overhead reductions without sacrificing quality of service.

As a Chief Engineer and Manager in large commercial mills and plants has given me the experience and management of large budgets and personnel negotiations.

I look forward to representing the constituents of Marion County Fire District #1 in this very crucial public service to ensure the safety of all we represent.

OCCUPATIONAL BACKGROUND:

Eldridge Grade School Board of Directors, 1970-1975
 Gervais Union High School Board of Directors, 1975-1979
 Marion County Fire District #1 Board of Directors, 1995-present

I became interested in the fire service in 1963 when I joined the Brooks RFPD as a volunteer. By the time the district was merged with Four Corners RFPD to form Marion County Fire District #1 in 1968, I had been appointed Assistant Chief. In the newly formed district my position became Deputy Chief. I served in that position until 1995 when I was elected to the District Board of Directors.

My goal during the last twelve years has been to represent the voters of the district by supporting the volunteer and paid firefighters in an organization where one complements the other. Also important is to provide the best possible protection and service to the community and to do it in a way that is affordable. I do not believe that cheaper is better, and I do not believe in waste and non-production.

During my previous twelve years on the board, I was involved in the establishment of the state-of-the-art Regional Training Facility in Brooks which both trains our firefighters and brings revenue to the district. 1999 Bonds passed by voters allowed this facility as well as the update of three fire stations and equipment to bring our firefighters to the height of readiness to serve this district.

During my thirty-two years as a volunteer, I responded to the emergencies of the citizens of this district responsibly and with dedication and leadership. I believe I have continued this service over the last twelve years on the Board of Directors. I would value the opportunity to continue my service to the firefighters and citizens of this community.

Silverton Public Works Association - Vice President 2002 - 2007

I was born and raised in Southern California. Graduated high school in 1975, and then went on to work.

I have been married for 26 years to my wife, have a daughter and granddaughter. In 1992 I was given an opportunity to transfer from a company that I worked for in California to Salem Oregon. So, given my love for Oregon I relocated my family. After a short period of time another opportunity arose, a chance to work in a small town. I started a new job with the City of Silverton in 1995 as a part time park worker, then was eventually hired on full time. I am still with the City of Silverton, Public Works. I was awarded employee of the year in 1997.

I joined the Silverton Fire District as a volunteer firefighter in 1995, and was assigned to the North Abiqua station # 3. I served as a volunteer firefighter and later was promoted to Lieutenant. In 1999 I was honored by the Silverton Fire District as Officer of the year.

I served as President of the Scotts Mills Firefighters Association in the years of 2000 and 2001. I was honored as firefighter of the year in 1996 and again in 2000 by the Scotts Mills Firefighters Association.

During my time as a firefighter, I also led the fight against Muscular Dystrophy (fill the boot). I have been highly involved in Silverton and Scotts Mills communities. I have a devotion to the town and the communities in which I live and work. So, as you can see, I have had several opportunities in life, and that's why it is so important to always give back.

PRIOR GOVERNMENTAL EXPERIENCE: -NA-

As a member of the Woodburn community I feel that it is important that all sections of our population be heard. As Woodburn grows, so do the needs of our community. It is crucial that the Fire Board be responsive to these needs.

It is also the job of the board to help train and educate the public. We must be proactive in reaching out to the community. Our young community members need to understand the importance of fire safety and the roll they play. Our senior community members need to feel safe if medical or fire emergencies arise.

The board needs to be the voice of the public, ensuring that all concerns and needs are being met.

My name is Charles Piper. I am 54 years old and was born in Woodburn. I attended and graduated from Woodburn High School and Oregon State University. I have worked and owned with my wife Becky and my father Harley, Piper's Jewelry for over 30 years. I was a volunteer fire fighter for the Woodburn Fire District for 28 years. I am a Woodburn Fire District, Woodburn area "homer". I make no claims to be otherwise.

I am very proud of the evolution of our Fire District in the 29 years I have been a part of it. The District has come a long way. However there are still miles to travel. The very nature of the fire service and life in general is one of change. In order to stay "current" we must have vision for the future, and a willingness to change and adapt the vision as time and circumstance require.

My business is 84 years old. Vision and adaptability are what I and my family have had to do to stay "current" since 1923. I believe my experience, passion, vision and adaptability coupled with a sound business approach makes me uniquely qualified to be a member of the Woodburn Fire District board of directors. I hope the citizens of our fire district agree and will entrust me with their vote.

Fellow citizens of Woodburn I am seeking your support and vote for position 3 of the Board of Directors for Woodburn Fire District. I look forward to being a positive part of our future, not only the Fire District, but the great community we live in.

I have been a resident of Woodburn for going on 14 years, and grew up just a stones throw away on a small farm in Gervais. My involvement with Woodburn Fire District began with me becoming a volunteer at the Waconda Station. A short time later, I was hired and served the community from the Woodburn Head Quarters Station. Fire and Emergency Services was quickly becoming my Career path. A great deal of my early training, education and work experience came from this very community. The opportunities afforded to me in these early years are invaluable, and I see this as my opportunity to give something back our community. I will bring a positive balance of education, Fire Service operational knowledge, life experience, diversity, and business knowledge to your Board of Directors.

I appreciate you taking the time to consider my candidacy and promise to give due diligence should you elect me.

I am running for re-election because I believe transit plays an important role in making our community a better place to live and work. I have been an advocate for making the transit system more efficient and for retaining and enhancing the quality of transit service on the most heavily used routes. The productivity of our current system is very high. I have supported two rate increases in the past two years so that passengers share in the cost of system maintenance and expansion. I am a supporter of running Cherriot buses using biodiesel so that our region can even further reduce pollution and dependence on foreign oil. I also support running smaller buses on less heavily used routes so that service can be more efficient, and believe that smaller buses will be part of the Cherriot fleet in the next four years.

There is still work to be done since many buses are full and passengers are left behind too often. I will continue to advocate for expanded service where the ridership justifies increased investment, as well as for investments in transit centers and mixed-use development so that walking, biking, and transit will be more convenient for more of our friends and neighbors as Salem-Keizer continues to grow.

Re-elect Eric Jacobson to the Transit Board.

Public transportation is an important community asset not only for the riders but the community.

Ridership on Cherriots, the Salem Keizer area's public transit system, has increased as we have been able to improve service by adding evenings as well as the West Salem Transit center. Our ridership gains have outpaced the growth of the area.

Cherriots can not solve all the area's transportation concerns without cooperation from our partner cities of Salem and Keizer as well as our citizens. If we are to continue to attract employers to Salem we must continue to have a public transit system that aids people reach their destinations.

Individual citizens can utilize transit to decrease their dependence on foreign oil. Using transit for even part of our trips saves money for our individual budgets.

I pledge my efforts to work with our area's leaders to continue to improve our system.
