1. INTRODUCTION

The Marion County Housing Authority (MCHA) is currently seeking privately owned properties within Marion County (excluding the city of Salem and Keizer, and the Urban Growth Boundary) that qualify to participate in the agency's Housing Choice Voucher (Section 8) Project Based Voucher Program.

MCHA is seeking rental property owners and/or developers (Proposers) who wish to attach federal rental subsidies to either (1) existing, (2) substantial rehabilitation or (3) new construction affordable rental housing through their Housing Choice Voucher Program and the U.S. Department of Housing and Urban Development Department's (HUD) Project-Based Voucher Rental Assistance Program. It is the MCHA's intention to solicit proposals from Proposers, evaluate the qualifications, establish a competitive range, conduct interviews, verify the information presented, and enter into an Agreement with the successful Proposer(s).

MCHA is limiting the acceptance of proposals to those that include a minimum of two Project-Based Section 8 units per project site. Proposals for Project-Based Section 8 for single family homes will not be accepted

All firms submitting proposals are referred to as proposers in this document; after negotiations, the awarded Proposer will be designated as Contractor.

2. BACKGROUND

MCHA has determined that converting some of its Tenant-Based housing vouchers to Project-Based vouchers (not to exceed 20% of the inventory) is in the community's interest. This is an appropriate option because it will (1) stabilize much needed affordable, rural housing opportunities, (2) further the strategies of MCHA's 10-Year Plan to End Homelessness and (3) expand housing and economic opportunity.

Project-Based Section 8, known herein as Project-Based Assistance (PBA), is a federal rental assistance program that aids families earning no more than 50% adjusted median income (AMI) through the attachment of rental subsidies to single and multi-family housing units. The rental subsidy is paid by the MCHA through HUD and reduces an eligible family's monthly housing costs to no more than 40% of adjusted monthly income. The MCHA is authorized to utilize up to 20% of its allocated Housing Choice Voucher Program subsidy for a PBA program. MCHA seeks to meet the agency's local goals, as outlined in the MCHA's Administrative Plan, with the award of a limited number of PBA vouchers.

In order to achieve these goals the MCHA invites interested proposers to participate in the Project-Based Voucher Program. In the Project-Based Voucher Program, assistance is attached to the physical structure and may be in the form of existing housing, newly constructed housing or rehabilitated housing. The actual selection of the units to be project-based shall also

be in full accordance with HUD requirements (24 CFR 983) and with MCHA's Administrative Plan.

MCHA intends to issue a maximum of 100 project-based vouchers to eligible existing, substantial rehabilitation or new construction affordable housing projects located in Marion County that are owned or will be acquired or developed by non-profit and/or governmental agencies. These project-based vouchers will be dedicated to persons who are very low-income (i.e., 50% or less of the area median income or AMI).

One-bedroom, two-bedroom, and three-bedroom units are preferred, although MCHA reserves the right to modify this distribution as needed. These 50% AMI units may be beneficial in subsidizing a mixed-income project or a multifamily project serving very low-income persons. Preference will be given to projects serving families and the elderly.

3. CONTRACT TERM

The Contract is anticipated to start in December 2017. The Contract term shall be for fifteen (15) years.

5. SCOPE OF WORK

In providing these services, proposer will be required to maintain compliance with all Federal, State, County and local laws, regulations and ordinances. In addition, proposer shall maintain compliance with applicable HUD regulations for the Project-Based voucher program.

A. Site and Neighborhood. The Project-Based Voucher Program requires assistance to be attached to the physical structure and may be in the form of existing housing, newly constructed housing or rehabilitated housing. Proposers may submit individual proposals for each of the three (3) types of Section 8 Project-based Vouchers:

- 1. **Existing and Rehabilitated Housing:** The MCHA will determine if a site for existing or rehabilitated housing meets the following site and neighborhood standards. The site must:
 - a. Be adequate in size, exposure and contour to accommodate the number and type of units proposed, and adequate utilities and streets must be available to service the site. The existence of a private disposal system and private sanitary water supply for the site, approved in accordance with law, may be considered adequate utilities.
 - b. Promote greater choice of housing opportunities and avoid undue concentration of assisted persons in areas containing a high proportion of low-income persons. Be accessible to social, recreational, educational, commercial, and health facilities and services, and other municipal facilities and services that are at least equivalent to those typically found in neighborhoods consisting largely of unassisted standard housing of similar market rents.
 - c. Be so located that travel time and cost via public transportation or private automobile from the neighborhood to places of employment providing a range of jobs for lower-income workers is not excessive. While it is important that housing for the elderly not be totally isolated from employment opportunities, this requirement need not be adhered to rigidly for such projects.
 - d. Require only that the units selected substantially meet Housing Quality Standards (HQS) at the time of selection, and completely meet HQS by the time of Housing Assistance Payment (HAP) Contract execution. Proposer shall not select a dwelling unit that houses an ineligible family. If eligible, family shall receive waiting list preference to be selected.

2. **New Construction (only):** A site for newly constructed housing must meet the following site and neighborhood standards:
 - a. The site must be adequate in size, exposure, and contour to accommodate the number and type of units proposed, and adequate utilities (water, sewer, gas, and electricity) and streets must be available to service the site.
 - b. A project may be located in an area of minority concentration only if: (1) sufficient comparable opportunities exist for housing for minority families in the income range to be served by the proposed project outside areas of minority concentration; or (2) the project is necessary to meet overriding housing needs that cannot be met in that housing market area.
 - c. The site must promote greater choice of housing opportunities and avoid undue concentration of assisted persons in areas containing a high proportion of low-income persons.
 - d. The neighborhood must not be one that is seriously detrimental to family life or in which substandard dwellings or other undesirable conditions predominate, unless there is a concerted program actively in progress to remedy the undesirable conditions.
 - e. The housing must be accessible to social, recreational, educational, commercial, and health facilities and services that are at least equivalent to those typically found in neighborhoods consisting largely of unassisted standard housing of similar market rents.
3. **Substantial Rehabilitation and New Construction:** Please note the following additional items:
 - a. Owner and MCHA execute an Agreement to enter into a Housing Assistance Payments Contract after approval of subsidy layering review and environmental assessment.
 - b. Housing Assistance Payments (HAP) contract is executed after units are inspected and determined to meet Housing Quality Standards.
 - c. More stringent environmental review and site and neighborhood criteria may be applicable.
 - d. Davis Bacon wages are triggered by projects with nine (9) or more Project Based Vouchers.
 - e. Accessibility requirements may be applicable in the construction or rehabilitation of the project.

4. **Must Minimize Displacement**

- a. Cannot select a dwelling unit that houses an ineligible family.
- b. If eligible, family must get waiting list preference to be selected.

MCHA will not award PBA for shared housing, cooperative housing, transitional housing, manufactured home space rental, or the homeownership option.

Additionally, MCHA will not award PBA for properties that are already subsidized under the following programs: Public Housing, any form of Section 8, any local or state rent subsidy, Section 236, Section 521, Section 202, Section 202 Loan, Section 811 or Section 101 Rent Supplement.

The PBA subsidy will be permanently attached to each assisted unit for the duration of the HAP contract with the owner. The subsidy will become attached to a particular unit after the first subsidized occupant moves in. Thereafter, only qualified program participants may occupy those specific units.

B. Subsidy Layering. The successful proposer(s) shall certify that the project has not received and will not receive (before or during the term of the HAP contract) any public assistance for acquisition, development or operation of the housing other than the assistance disclosed in the subsidy layering review in accordance with HUD requirements.

MCHA shall enter into an Agreement or HAP contract with the successful proposer(s) upon completion by an independent entity approved by HUD has conducted any required subsidy layering review and determined that the Project-Based Voucher assistance is in accordance with HUD subsidy layering requirements.

C. Cap on PBA Units. MCHA shall limit the Project-Based Voucher Program number of units to be 25 units or 25% of PBA units per project during the term of the successful proposer(s) HAP contract.

1. MCHA may project base up to 40% of units in the project if the project is located in a census tract with a poverty rate of 20% or less.
2. Units that do not count toward the 25% or 25-unit cap:
 - a. Unit exclusively serving elderly households. Elderly is defined as 62 years or older.
 - b. Unit housing households eligible for supportive services that are available to all households receiving PBV assistance in the project.

- c. Unit that received HUD assistance (Public Housing Capital or Operating Funds; Project-based Rental Assistance; Housing for the Elderly; Housing for Persons with Disabilities; Rent Supplement program; Rental Assistance Program) or was subject to rent restrictions as a result of a HUD loan program (Section 236; Section 221(d)(3) or (d)(4)BMIR; Housing for the Elderly – Section 202; Housing for Persons with Disabilities – Section 811) in the past 5 years, including a new construction unit that qualifies as a replacement unit.

D. Site Selection and Neighborhood Standards. All project locations or site(s) shall be located within a MCHA qualified census tract, which meets HUD’s goals for the de-concentration of poverty. Preference will be given to projects shall be located in census tracts with a poverty rate of 20% or less.

Proposer(s) shall submit justification for the need to project-base their development in such an area and identify the positive impact(s) that the project will contribute to the jurisdiction. Project located in non-qualified census tracts (>20%) will require HUD review and approval. All projects shall meet HUD’s site and neighborhood standards as described in 24 CFR 983.57 and the MCHA Administrative Plan.

Proposer(s) site for Existing or Substantial Rehabilitation housing shall meet the following site and neighborhood standards. The site shall:

1. Be adequate in size, exposure and contour to accommodate the number and type of units proposed, and adequate utilities and streets shall be available to service the site. (The existence of a private disposal system and private sanitary water supply for the site, approved in accordance with law, may be considered adequate utilities.)
2. Promote greater choice of housing opportunities and avoid undue concentration of assisted persons in areas containing a high proportion of low-income persons.
3. Be accessible to social, recreational, educational, commercial, and health facilities and services, and other municipal facilities and services that are at least equivalent to those typically found in neighborhoods consisting largely of unassisted standard housing of similar market rents.
4. Be so located that travel time and cost via public transportation or private automobile from the neighborhood to places of employment providing a range of jobs for lower-income workers is not excessive.
5. Poverty concentration criteria established by MCHA in the site selection standards shall be addressed, including mandatory criteria to ensure that statutory goal of de-concentration is met.

New Construction Housing shall meet the following site and neighborhood standards:

1. The site shall be adequate in size, exposure, and contour to accommodate the number and type of units proposed, and adequate utilities (water, sewer, gas, and electricity) and streets shall be available to service the site.
2. The site shall not be located in an area of minority concentration, except as permitted in section iii below, and shall not be located in a racially mixed area if the project will cause a significant increase in the proportion of minority to non-minority residents in the area.
3. Exception: A site may be located in an area of minority concentration only if:
 - a. Sufficient comparable opportunities exist for housing for minority families in the income range to be served by the proposed project outside areas of minority concentration; or
 - b. The project is necessary to meet overriding housing needs that cannot be met in that housing market area.
4. The site shall promote greater choice of housing opportunities and avoid undue concentration of assisted persons in areas containing a high proportion of low-income persons.
5. The neighborhood shall not be one that is seriously detrimental to family life or in which substandard dwellings or other undesirable conditions predominate, unless there is a concerted program actively in progress to remedy the undesirable conditions.
6. The housing shall be accessible to social, recreational, educational, commercial, and health facilities and services that are at least equivalent to those typically found in neighborhoods consisting largely of unassisted standard housing of similar market rents.
7. Except for new construction, housing designed for elderly persons, travel time, and cost via public transportation or private automobile from the neighborhood to place of employment providing a range of jobs for lower-income workers shall not be excessive.

All building sites and neighborhood locations proposed for existing housing must receive HUD approval prior to the award of subsidy. The sites and neighborhoods will be assessed for the fulfillment of specific HUD criteria, as referenced in 24 CFR 983 and the MCHA Administrative Plan.

E. Environmental Review. Environmental Review is required for Existing, New Construction and Substantial Rehabilitation units. For New Construction or Substantial Rehabilitation, work cannot begin, nor can an Agreement to enter a HAP contract occur until the Environmental Review is complete.

The MCHA will not enter into an Agreement or HAP contract with an awarded proposer(s) nor will the MCHA, the awarded proposer(s) or its contractors acquire, dispose of, demolish, or construct real property or commit or expend program or local funds for Project-Based Voucher activities until one of the following occurs:

1. The responsible entity (a unit of general local government, a county or a state) has completed the environmental review procedures required by 24 CFR part 58, and HUD has approved the environmental certification and request for release of funds;
2. The responsible entity has determined that the project to be assisted is exempt under 24 CFR 58.34 or is categorically excluded and not subject to compliance with environmental laws under 24 CFR 58.35(b); or
3. HUD has performed an environmental review under 24 CFR part 50 and has notified the MCHA in writing of environmental approval of the site.

The MCHA will require the awarded proposer(s) to carry out mitigating measures required by the responsible entity (or HUD, if applicable) as a result of the Environmental Review. All awards of subsidy are conditional upon the successful completion of an environmental review.

F. Housing Quality Standards Inspections. The MCHA shall inspect proposed units before the proposed public notice of selection date (Section 4. Schedule of Events) and Proposer's units shall substantially pass Housing Quality Standards (HQS), per 24 CFR 982.401. Proposer's units shall fully comply with HQS standards before the execution of a HAP contract.

G. New Construction and Substantial Rehabilitation. Proposers proposing on New Construction projects shall provide documentation that (1) the units will comply with the HQS and (2) construction or rehabilitation has not begun. Proposals for New Construction projects shall include the following:

2. Number of proposed units by size including number of bedrooms and bathrooms;
3. Services, maintenance, or equipment to be supplied by the proposer without charges in addition to the rent fee.
4. Utilities available to the proposed units, including utilities paid by proposer and utilities paid by tenant.
5. Indication of whether or not the design and construction requirements of the Fair Housing Act and implementing regulations at 24 CFR 100.205 and the accessibility requirements of section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and implementing regulations at 24 CFR 8.22 and 8.23 apply to units under the Agreement. If these requirements are applicable, any required work item resulting

from these requirements must be included in the description of work to be performed, as specified in paragraph (c)(i)(viii) of this section.

6. Estimated initial rents to proposer for the proposed units.

H. Additional Requirements.

1. Proposals must clearly show that individuals selected under the “Chronically Homeless” category are eligible in accordance with HUD’s definition for chronically homeless.
2. If an assisted family moves out of the unit, the proposer may keep the housing assistance payment payable for the calendar month when the family moves out (“move-out month”). If the MCHA determines that the vacancy is the proposer’s fault, the proposer may not keep the payment.
3. MCHA will maintain separate waiting lists for its Housing Choice Voucher and Project-Based Assistance programs. Prospective tenants on MCHA’s Project-Based Assistance waiting list will be referred to eligible proposers for screening and selection. Proposers may also refer applicants to MCHA to apply for the Project-Based Assistance waiting list.
4. All assisted units will be inspected by MCHA on an annual basis to verify continued compliance with HUD’s Housing Quality Standards. For quality control purposes, MCHA will inspect non-Project-Based Voucher units in the same project to ensure that the Project-Based Voucher units are in the same or better condition than the non-Project-Based Voucher units.
5. The gross rent (rent plus utility allowance) for all subsidized units will be established as the lesser of:
 - a. An amount not to exceed the reasonable rent as determined by MCHA in accordance with 24 CFR part 983.256.
