Teri Morgan, MCHD
Sandy Stewart, MCHD
Anna Cimaglio, Bridgeway
Cary Moller, CAPS
Geoff Heatherington, PCMH

Meeting called to order at 1:00pm

I. Announcements and Introductions – All

- ❖ Tomoko stated they have one new staff names Mike Beirs
- ❖ Geoff stated the board of commissioners has signed a lease for a location in West Salem; there will be all services there for all ages except for crisis which will still be in Dallas. He has sent the floor plans in but there still are some adjustments that need to be made
- ❖ Cary stated the next revenue process comes out Thursday and that if there is an improvement in the forecast the governor said that the health and human services and seniors would benefit from it.

II. Admissions/Data Information - Scott

- ❖ Review of March report from admissions data forms
 - Primary drug of choice - primary is alcohol
 - Program assignment – primary general outpatient going to research the percentage on the DUII because it does seem like it is lower than it should be, reason might be because they are being counted as a general outpatient and not as a DUII
 - Discharge status – 56% in successful completion, want to look into what we can do to better engage people in the process,
 - Employment status – an increase in the number of people who were employed at discharge and the number of people unemployed decreased

- Stage of Change – great decrease in contemplative and a great increase in preparation and action
- Reports show that 98% come back after the assessment, 27% left prior to 90 days, 63% completely stopped or reduced their use, 56% completed treatment
- ❖ Relevance of this Report and How it is Used – Discussion
 -

III. Screening Brief Intervention and Referral to Treatment(SBIRT)

- ❖ Power Point Slideshow
 - SBIRT has gone through hundreds of studies and is an evidenced based practice
 - First you have to understand the problem, which includes the history of the problem
 - Doctors, nurses, substance use providers and patients all need to be able to understand what is considered as moderate drinking
 - 25% of the US population are at risk or problems drinkers and 4% are dependent 71% are low or no risk for every 6 people at risk there is one person that is dependent
 - SBIRT proposes that substance abuse is a public health problem, the goal is to identify what level of risk people are at and what motivation they have to make changes
 - There is a pre-screening, full screening, and a brief intervention, also a brief treatment and a traditional treatment
 - This takes place a an emergency room, a doctors office, primary care clinic and trauma centers, in our region we are trying to bring it into the primary care provider locations
- ❖ www.sbirtoregon.org SBIRT Oregon Initiative from OHSU – video examples of situations between docs and their patients
- ❖ Pre-Screening Tools
- ❖ Relevance to the Treatment World
