(503) 831-1726 Fax

*Note:* Residential chemical dependency programs are not part of the Oregon Health Plan, but any of the outpatient programs can assess the need for this level-of-care and make the necessary referrals to state-funded programs. In addition, they can provide interim outpatient services until the Member is able to enter residential treatment and can provide follow-up care as needed.

**PROCESS AND/OR PROCEDURE:**

Providers can be contacted directly for referrals and/or questions. Our Providers incorporate a number of evidence-based practices in their milieu and can give you provider-specific information on their current practices.

When Members are enrolled in both chemical dependency and mental health services, collaboration between Providers is expected. Please see Section III(4) for more information on co-occurring disorders.

If you would like to consult about a member's needs, please contact the Chemical Dependency Member Services Coordinator at (503) 566-2992.
