

OUT OF CLINIC SERVICES

“Services provided outside of the provider’s usual office for the purpose of either increasing access, convenience or comfort for the Member or for treatment needs.”

Scenario	Increases Access?	Convenience/ Comfort at MEMBER Request?	Meets Treatment Needs?	Site Funded by IDS Agency	Community Good Will Service?	OOC?
Therapist has primary office at main building. To increase access to services for a certain population of clients he starts seeing some of them at a different location, which is easier for them (clients) to get to. Therapist is traveling back and forth to between locations see clients. Therapist will have to have a lower caseload (less billable hours) to be able to accomplish this. It is an Agency building but not the primary counseling center.	Yes	Yes	No	Yes	Unknown	No
The Middle school in a rural location has called to offer a private space to see children on-sight when the need arises. There are no formal contracts between school or treatment program. Staff does not have set hours. There are no administrative supports attached to the location. Intakes are centralized at the primary agency office site.	Yes	Yes	Yes	No	Yes	Yes
Therapist is interested in getting a camper or RV and going to rural Marion Co. to see some of her clients. She is thinking that it would be easier to go to a central location - example the Stayton library, park and have some of the clients come to her. She thinks that she would be able to see more clients without the drive time between homes and make better use of her and the client’s time. There are a lot of clients that we lose to therapy because of transportation issues between these areas and Salem and the thought is that it would help them if they didn't have to drive all the way into town. If clients really need to be seen at their home, she would continue to see them there.	Yes	Yes	Yes	No	Yes	Yes
Primary Clinic location is across the street from the youth’s shelter. A staff has been co-located at the shelter and sees client there.	No	Unknown	No	Yes	No	No
