Courthouse Square Activity

Salem, OR – On Monday, September 19, engineering firm Wiss, Janney, Elstner Associates, Inc. (WJE) will be at Courthouse Square to begin site survey and other non-destructive work in preparation for additional structural and materials tests on Courthouse Square.

The Courthouse Square complex is jointly owned by Marion County and the Salem Area Mass Transit District. The management of the property is governed by a condominium agreement signed by the two owners.

WJE will conduct testing on behalf of Affiliated FM, the property insurance carrier for the Courthouse Square Condominium Association and Marion County. The condominium association and county have outstanding claims with Affiliated FM relating to Courthouse Square. The additional building tests will be scheduled at a later date.
