**Marion County To Begin Chip Sealing Local Roads**

Marion County will begin its 2009 Chip Seal Program on Monday, July 6. This will consist of pothole patching, crack filling, pre-sweeping, chip sealing, post-sweeping, fog sealing and re-striping as necessary. Traffic will be limited to one lane at times in the affected areas so drivers are warned to expect delays of ten to fifteen minutes.

Motorists, bike riders and pedestrians may want to find alternate routes until the post chip sweeping is completed. Marion County also encourages drivers to obey the posted speed limit through work zones to prevent materials that are being applied to the road from getting on vehicles or breaking windshields.

During the week of July 6, 2009 Marion County will be chip sealing the following roads:

<b>Location of Chip Seal Project:</b>	<b>Start Date</b>
Jordan St SE & Joseph St SE	Mon 7/6/2009
Joseph St & Liberty Rd S	Tues 7/7/2009
Abiqua Rd NE	Tues 7/7/2009
