---	------------------	--------------------	-----------------------------

<p style="text-align: center;">Extended Weight</p> 	<p>Extended Weight and/or Over Length Permit (Codes U, W, X, Y or Z 13): Authorizes operations to exceed the maximum legal weight of 80,000 pounds up to a maximum of 105,500 pounds providing the combination has the proper axles and spacing to haul the weight. Axle weights must be legal. Bridge weights must conform to either Permit Weight Table 1 or 2. This permit is also issued for certain type of combinations to exceed legal length.</p> <p>Power units must be equipped with a tandem drive axle; except:</p> <ul style="list-style-type: none"> • Power units of doubles placed into service prior to April 1, 1983, may have a single drive axles and operate over 80,000 pounds. • Power units of any combination not exceeding 80,000 pounds when the permit is issued for length only. <p>Splash and spray devices are required on combinations exceeding 80,000 pounds when operating on highways that are wet, including those surfaces that have rain, frost, ice, sleet or snow.</p>
--	---

<p style="text-align: center;">Heavy Haul/Over Width</p> 	<p>Heavy Haul Over Width & Over Weight 98,000 lbs. Permit (Codes U, W, X, Y or Z 03): Authorizes movement of an overwidth and/or overweight load on a truck-tractor semitrailer combination. The maximum gross weight authorized by this permit is 98,000 lbs, not to exceed 43,000 lbs. on a tandem axle or 21,500 lbs. on a single axle and not to exceed the wheelbase weights authorized by Permit Weight Table 3.</p> <p>Heavy Haul Over Width & Over Weight 80,000 lbs. Permit (Codes U, W, X, Y, or Z34): Authorizes movements where permit Weight Table 3 applies to trailer hauling single non-divisible item only. All other combinations of groups of axles and gross weight must conform to Permit Weight Table 1.</p> <p>Over Width & Legal Weight 80,000 lbs. Permit (Codes U, W, X, Y or Z 01): Authorizes movement of an overwidth and legal weight load on a truck-tractor semitrailer combination. The maximum gross weight authorized by this permit is 80,000 lbs, not to exceed 34,000 lbs. on a tandem axle or 20,000 lbs. on a single axle and not to exceed the wheelbase weights authorized by Permit Weight Table 1.</p>
---	--

<p style="text-align: center;">Unladen Heavy Haul Truck-tractor/semitrailer w/jeep and/or booster</p> 	<p>Unladen Heavy Haul Truck Tractor/Semitrailer w/Jeep and /or Booster Permit (Codes U, W, Y, or Z 39) Authorizes the unladen movement of a combination with up to a 62' semitrailer when accompanied by a jeep and/or booster. The combination must include truck-tractor, semitrailer, jeep and/or booster. Jeep and/or booster may be decked. If jeep & booster are both decked, weights must comply with Weight Table 1. Maximum authorized dimensions are shown on the permit sample.</p>
---	--

Heavy Haul/Over Width

Heavy Haul Over Width & Over Weight 98,000 lbs. permit (Codes U, W, X, Y or Z 36):
 Authorizes movement of an overwidth and/or overweight load on a truck & trailer combination. The maximum gross weight authorized by this permit is 98,000 lbs, not to exceed 43,000 lbs. on a tandem axle or 21,500 lbs. on a single axle and not to exceed the wheelbase weights authorized by Permit Weight Table 3. The Power unit must be unladen

Over Width & Legal Weight 80,000 lbs. Permit (Codes U, W, X, Y or Z 32):
 Authorizes movement of an overwidth and legal weight load on a truck-tractor semitrailer combination. The maximum gross weight authorized by this permit is 80,000 lbs, not to exceed 34,000 lbs. on a tandem axle or 20,000 lbs. on a single axle and not to exceed the wheelbase weights authorized by Permit Weight Table 1.

70/80 Permit

Truck Tractor w/Semitrailer 70/80 Permit (Codes U, W, X, Y or Z 30):
 Authorizes a truck-tractor/semitrailer combination to have a total overall length of 80' with a load length of a single item up to 70'. Authorizes rear overhang to exceed 1/3 wheelbase up to 1/2 of the wheelbase. Wheelbase is measured from the center of steering axle to the center of the last axle of the semitrailer. Rear overhang is measured from the center of the last axle on the semitrailer to the rear most part of the load. No item may be loaded in multiples causing the overlength.

Exception: Laminated wood products & wooden I-beams may be loaded in multiples providing not more than 49% of each item by length or weight overhangs the rear of the trailer and is not longer than the longest laminated wood product or wooden I-beam.

Long Logs, Poles or Pilings

Long Logs, Poles & Pilings and Structural Members Permit (Codes U, W, X, Y or Z 13):
 Authorizes the transportation of long logs, poles, piling, and structural members on certain type of truck and trailer combinations. See Permit for authorized combinations, approved routes, and authorized overall lengths. Load length is determined by the overall length of the combination.

Toter/Manufactured or Mobile/Modular Unit

Manufactured Home, Mobile/Modular Unit Permit (Codes U, W, X, Y or Z 09):
 This permit authorizes the movement of mobile homes or modular units exceeding 8'6" in width or 45' feet in length. The maximum width, inclusive of eaves, is 14 feet. The overall length is limited to 95 feet with the mobile/Modular unit inclusive of the tongue limited to 75 feet. Pilot vehicle requirements are based on the extreme width of the unit inclusive of eaves. Modular units must be transported on a truck-tractor and semitrailer combination. The semitrailer shall not exceed 53 feet in length except by single trip permit.
