Marion County Fair Winner Results Posted on the Web

The 2009 Marion County Fair, themed “Green & Growing: Celebrating 150 Years of a Clean & Green Oregon,” was held July 9-12. According to fair officials, commercial vendor participation was up, food vendor sales were up, and student animal exhibits exceeded those in previous years.

“While we are still compiling all the numbers and going through gate receipts to determine accurate totals, early tabulations are showing that in just about every aspect of the fair this year we either met or exceeded our expectations,” explained Kelly Walther, fair board chair. Walther added that when results are completely tabulated they will be posted on the Marion County Fair website.

In addition to the fair being a winner, many local residents came away from the fair as winners in the various competitions, from the talent show contest, to baking breads and pies, to all the entries through 4-H and FFA. The Marion County Fair has established a new link on its website listing many of the competition winners. To view this, you may go to the home page at: www.mcfair.net.
