

Multifamily Recycling Program Community Pledge

I pledge to...

- Monitor and maintain our recycling and garbage depots.
- Offer encouragement and guidance to our current residents.
- Introduce our recycling system to new residents.

What is a Multifamily Community?

Any property with a minimum of five residential units including:

- Apartments
- Retirement & Senior Living
- RV & Mobile Home Parks
- Condominiums
- Townhomes

Free On-site Recycling Options

If the property is located within your city's urban growth boundary, you can request containers and pick-up service from your garbage hauler for mixed recycling (paper, metal, and plastic) and glass recycling at no additional cost to your current garbage collection service.

Recycle = Reduce

Recycling saves natural resources. For your multifamily community, recycling could also mean reduced garbage service costs. To decrease these costs, you must reduce the frequency of garbage pick-up, the size of garbage containers or the number of collection containers.

THIS SYMBOL SIGNIFIES A MIXED RECYCLING CONTAINER.

Expand Your On-site Recycling Today!

A Recycling Program the Works

As part of the management staff, you are crucial to a successful on-site recycling program. Your residents will increase their recycling knowledge from the materials and guidance you provide and by following your recycling footsteps.

Three essential keys to a successful program:

- 1) Convenient and well-labeled recycling containers near every garbage container.
- 2) Clear and informative recycling materials for all residents.
- 3) Management staff that exhibit and encourage good recycling behaviors.

How can the Multifamily Recycling Program help?

Our program can offer assistance with your on-site recycling program in several ways:

- Conduct an on-site waste assessment to provide recommendations for waste reduction opportunities
- Educate property owners and site managers about recycling and disposal options in Marion County
- Provide a variety of bilingual (English & Spanish) materials including signs, container decals, fliers, and brochures
- Participate in community events & presentations

These services and materials are of no cost to you or your residents. That means FREE!

The goal of the Multifamily Recycling Program is to increase the participation of recycling at your residential community. We do this by making recycling easy for you and your residents.
