Mr. Reich

On November 21, 2017 I forwarded you an updated Conditional Use Application and Mass Gathering Permit Application and supporting documents. These documents specifically stated that tickets sales for the 2018 Willamette Country Music Festival would be capped at 30,000.

I am requesting this letter to be posted on the website for public viewing to correct the fact that the documents made public and currently on the website are not accurate in terms of attendance. This has caused a great amount of misinformation and speculation about our event that is incorrect. I appreciate your making this letter public as soon as possible to correct this.

Respectfully,
