**EXHIBIT A**  
**APPENDIX II TO PART 200—CONTRACT PROVISIONS FOR NON-FEDERAL ENTITY CONTRACTS UNDER FEDERAL AWARDS**

Contracts for more than the simplified acquisition threshold currently set at \$150,000, which is the inflation adjusted amount determined by the Civilian Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

- All contracts in excess of \$10,000 must address termination for cause and for convenience by the non-Federal entity including the manner by which it will be affected and the basis for settlement.
- Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of “federally assisted construction contract” in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, “Equal Employment Opportunity” (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, “Amending Executive Order 11246 Relating to Equal Employment Opportunity,” and implementing regulations at 41 CFR part 60, “Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor.”
- Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of \$2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, “Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction”). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland “Anti-Kickback” Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, “Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States”). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.
- Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of \$100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours

worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

- **Rights to Inventions Made Under a Contract or Agreement.** If the Federal award meets the definition of “funding agreement” under 37 CFR §401.2 (a) and the recipient or Subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that “funding agreement,” the recipient or Subrecipient must comply with the requirements of 37 CFR Part 401, “Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements,” and any implementing regulations issued by the awarding agency.

- **Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended—**Contracts and subgrants of amounts in excess of \$150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

- **Debarment and Suspension (Executive Orders 12549 and 12689)—**A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), “Debarment and Suspension.” SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

- **Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—**Contractors that apply or bid for an award exceeding \$100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. - Audit Requirements of 2 CFR §200.5XX (Subpart F)

- Subrecipient must comply, and require any subcontractor to comply, with applicable audit requirements and responsibilities set forth in this Agreement and applicable state or federal law.

- If Subrecipient expends federal awards in excess of \$750,000 in a fiscal year, Subrecipient is subject to audit conducted in accordance with the provisions of 2 CFR part 200, subpart F. Copies of all audits must be submitted to the County within 30 days of completion.
  
- Subrecipient must save, protect and hold harmless the County from the cost of any audits or special investigations performed by the Secretary of State with respect to the funds expended under this Agreement. Subrecipient acknowledges and agrees that any audit costs incurred by Subrecipient as a result of allegations of fraud, waste or abuse are ineligible for reimbursement under this or any other agreement between Subrecipient and the County.
  
- System for Award Management. Subrecipient must comply with applicable requirements regarding the System for Award Management (SAM), currently accessible at <https://www.sam.gov>. This includes applicable requirements regarding registration with SAM, as well as maintaining current information in SAM. Subrecipient must also comply with applicable restrictions on subawards ("subgrants") to first tier subcontractors (first-tier "Subcontractors"), including restrictions on subawards to entities that do not acquire and provide (to the County) the unique entity identifier required for SAM registration.
  
- Whistleblower Protection Act. Subrecipient must comply and ensure the compliance by subcontractors, with 41 U.S.C. 4712, Program for Enhancement of Employee Whistleblower Protection. - See § 200.216 Prohibition on certain telecommunications and video surveillance services or equipment.
  
- See § 200.323 Procurement of recovered materials.
  
- Recordkeeping Requirements. Subrecipient must maintain records and financial documents for five years after all funds have been expended or returned to the County. The County may request transfer of records of long-term value at the end of such period. Wherever practicable, such records should be collected, transmitted, and stored in open and machine-readable formats.
  
- Subrecipient must agree to provide or make available such records to the County upon request, and to the Government Accountability Office ("GAO"), U.S. Treasury's Office of Inspector General ("OIG"), and their authorized representative in order to conduct audits or other investigations.
  
- Civil Rights Compliance. Recipients of Federal financial assistance from the U.S. Treasury are required to meet legal requirements relating to nondiscrimination and nondiscriminatory use of Federal funds. Re: RFP Response for Marion County CDBG Housing Rehab Program

Dear Reviewing panel member,

The Mid-Willamette Valley Council of Governments (the COG) is pleased to submit its proposal for the Marion County Requests for Proposals BO1093-22. The COG has partnered with and administered on behalf of Marion County and Cities within, Housing Rehabilitation programs for over 30 years. As part of our Valley Development Initiatives (VDI), COG housing rehabilitation services to include developing appropriate contract documents for homeowners and contractors; promoting the availability of funds to potentially eligible homeowners in the eligible area; inspecting houses and prepare work write-ups and preliminary cost estimates in accordance with applicable codes and standards; assisting homeowners with the selection of contractors; monitoring the work of contractors; inspecting the work of contractors to determine eligibility for payment; arbitrating disputes that may arise between homeowners and contractors; maintaining files with all required program documentation; and any other assistance as may be required to successfully operate a housing rehabilitation program financed with Community Development Block Grant funds.

The COG has managed the Valley Development Initiatives Housing Rehabilitation Partnership during a time when there was a need for such assistance and has continued to this day with its programs VDI serves as a “subrecipient” of Community Development Block Grant funds for Marion County and several small cities that use this grant source to capitalize local housing rehabilitation loan programs. Federal and state regulations make it attractive to local governments to “subgrant” this program to non-profit organizations. VDI uses these funds as well as contributions from local governments to repair homes of clients meeting eligibility guidelines in Marion County. Funds recovered through the sale of homes are then placed back into the program and are available for relending.

The COG continues to staff its Community Development Programs, specifically in the area of Grant Writing, Grant Administration to include Housing Rehabilitation Programs, and has recently added staffing capacity to ensure these programs have the means to serve our membership.

Our interest in submitting this proposal is to expand this offering as well as maintain that continuity in such an important program here in Marion County.

Contact Information for this submittal:

McRae Carmichael, Community Development Director  
100 High Street SE, Suite 200  
Salem, OR, 97301

We look forward to a favorable response to our submittal and to working with Marion County in this important effort.

Sincerely

McRae Carmichael, Director  
MWVCOG Community and Economic Development

**1.1 Cover Letter.** The proposal must be submitted with a cover letter describing the proposer's interest and commitment to the proposed project. The letter must include the name, title, address, and telephone number of the individual to whom correspondence and other contacts should be directed during the selection process. The person authorized by the proposer to negotiate a contract with the County must sign the cover letter.

Please see page 2-3 Cover Letter

**1.2 Approach and Management Plan.** Describe the approach and management plan for providing the services. Include an organizational chart showing the proposed relationships among proposer staff, County staff and any other parties that may have a significant role in the delivery of this program. Provide an explanation of the goals and performance measures to accomplish.

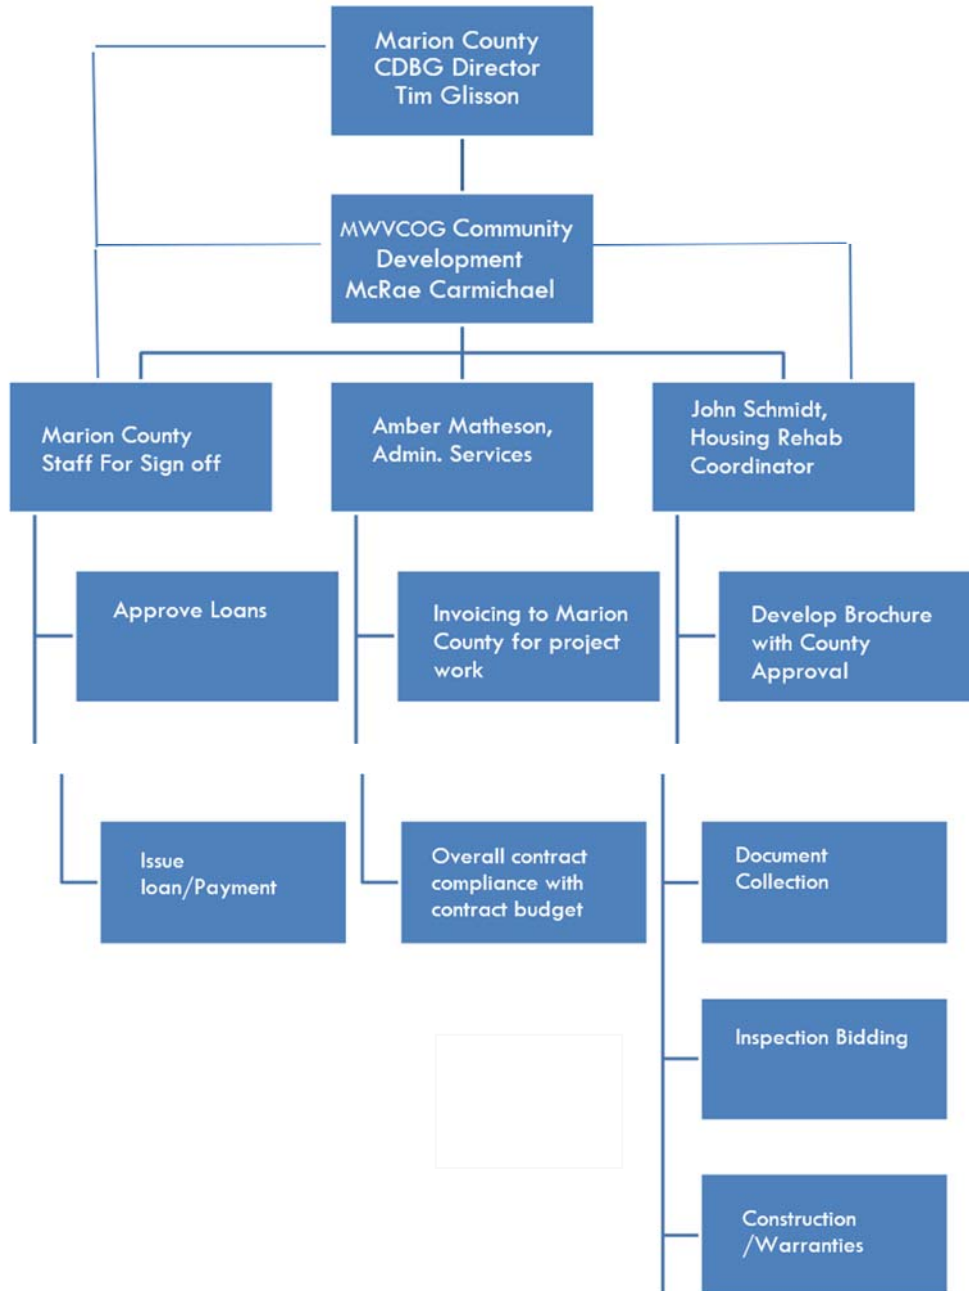

Our approach to this program will be to first assist with learning the new software program and becoming well versed for use. Simultaneously, we will be developing marketing materials to share with the 18 entitlement communities, in both digital and paper forms. Distributing the program materials and making communities aware of the opportunity is a critical starting step. We will begin this in the Fall/Winter 2022 with continued follow-up with City Administrators and Councils in all 18 communities throughout the Spring of 2023 and on-going.

In creating marketing materials, MWVCOG already has a housing brochure and templates created for the administration of our current housing rehab loan program. We have these programs translated in Spanish and Russian. We will meet with County staff immediately upon receipt of a contract to begin the program goals and develop Marion County CDBG marketing materials for this program.

Our goal is to assist as many property owners within the 18 entitlement communities that meet LMI eligibility requirements. Upon that determination our goals are

- Efficiency of the program to target interested parties, set-up initial determinations of eligibility and see projects improvements through completion of project.
- Transparency of information to customers (customers are both loan recipients and the County)
- Professionalism in every step of the program
- Clear and consistent communication

# ORGANIZATIONAL CHART

**1.3 Qualifications and Experience.** Provide the qualifications and experience of the key team member(s) who will work on the project. Emphasize the specific qualifications and experience from projects like this project for the key team members. Key team members are expected to be committed for the duration of the project. Replacement of key team members will not be permitted without prior consultation with and approval of the County.

Key Persons – Identify key personnel who will be responsible for planning and implementing this proposal and will be in charge or provide key skills and contributions. Identify name, position, relevant experience, and duties regarding Proposal.

- McRae Carmichael, Community and Economic Development Director
- John Schmidt, Housing Rehab Specialist/Grant Specialist
- Silas Lobnibe, Grant Specialist
- Amber Mathesian, Finance Director
- Denise Vandyke, Administrative Specialist
  - McRae Carmichael, Community Development Director

McRae serves as the Community and Economic Development Director for the MWVCOG. She has nearly two decades of planning and community development experience. McRae will be responsible for the oversight of the program, review of the budget with Finance Director and team. She will submit annual and quarterly reports to the County if required and the overall success of the program to meet its directive.

- Amber Matheson, Finance Director

Amber has been the MWVCOG's Finance Director for 3 years. Prior to joining the COG, she served in City Management/Human Resources roles for several local jurisdictions. Amber brings decades of experience managing approved budgets and reporting to Federal and State Agencies on awarded dollars to meet obligatory requirements of funds.

- Grant Administrator Specialist John Schmidt, Housing Rehabilitation Specialist

John has been our Housing Rehab Specialist for 4 years at the COG. Over the course of his time, he has been involved with hundreds of loan and grant applications and oversight. John's attention to detail is impeccable. He manages each property file with all critical/key information and manages record keeping with discipline and accuracy. He is thorough and has timely communication on topics. His work style is professional and yields success for our customers. He is a tremendous value to our team at COG.

Valley Development Initiatives has managed a regional Housing Rehabilitation Loan Program since 1999. The low-interest deferred payment program provides economically disadvantaged populations access to capital to make necessary home improvements in 15 cities and unincorporated Marion County.

The MWVCOG has extensive experience administering CDBG loans. We have been receiving funds from CDBG for large infrastructure projects and has a revolving loan program. We have over 15 years' experience administering this program. We also

receiving several Federal, State and private grants for land use and transportation planning with strict quarterly and annual reporting requirements.

Staff will have a regularly scheduled meeting with Marion County staff to update on current loans and where they are in the process.

Within the Mid-Willamette Valley Council of Governments, we host a program called Valley Development Initiatives (VDI). VDI has administered a Manufactured Home Rehabilitation Grant Program for the City Of Stayton and is currently administering a Housing Rehabilitation Grant Program for the City of Silverton. We have issued 35 grants for Stayton and Silverton in the past 24 months. This program is administered by our Grant Administrator. The total dollar amount granted for the Stayton Grant was \$300,000. Total amount awarded for the City of Silverton is \$400,000.

**1.4. Work Plan and Schedule.** Describe how you will perform each task of the project, identify deliverables for each task and provide a schedule. The work plan should be in sufficient detail to demonstrate a clear understanding of the timeframe for distributing the marketing material and the process/timeline for completion of one rehab project. The County is aware that this RFP is to form a relationship on how to complete individual rehabs for property owners and it is not the respondent’s responsibility to make income determinations on applications. It is the county’s responsibility to make sure the funds allocated to the Rehabilitation Program are spent and enough projects are secured to meet the requirements submitted to the United States Department of Housing and Urban Development. The respondent is merely assisting through the process.

**1.5 Staffing Plan.** Discuss the workload for all key team members and their capacity to perform the requested services for the project, according to your proposed schedule

*John Schmidt, Housing Rehab Specialist/Grant Specialist*

Currently manages our Housing Rehab Loan program for Silverton and Stayton. He has an excellent system in place for managing Housing Rehab Loans that can expand to these additional communities. He works a 40 hour work week and has capacity to add more loans. Since we will not be issuing the loans, John's role with certifying LMI and managing the contractor/inspection phase will align well with his current skills and workload.

*McRae Carmichael, Community Development Director*

McRae will work directly with John to review applications that come in and what is proposed. Currently McRae reviews and signs off on all loan/grant approvals prior to work commencing. With this work we will have weekly check-ins on status to manage workload and application status.

*Silas Lobnibe, Grant Specialist*

Silas has been with the MWVCOG for 6 months. He is currently completing a CDBG application for the City of Sheridan. He also is managing several other Cities applications for funding and grants. Silas will be involved in the development of the new brochure for this program and the marketing materials. He also will train with John to assist in verifying LMI

*Amber Mathesian, Finance Director*

Amber will be responsible for overseeing our time tracking and invoicing to the County for all the work done on this project. Amber has several staff in her department, and we recently changed our accounting system to provide more streamlined services and efficiency. Amber will assist in making sure we are tracking along with our budget. This will occur with bi-weekly reporting on everyone's billed time to the project. This will help to ensure that we keep within our scope of work and budget.

*Denise Vandyke, Administrative Specialist*

Denise has been at the COG for over 20 years. She is an excellent institutional resource both for the COG’s business practices and our community. She has an extensive number of technical skills to be able to work with staff with brochures or learning a new program for data collection. Denise is prepared to assist staff with completing tasks as they develop over the life of the project.

**1.6 Cost Proposal.**

Compensation for services is from the program funds on a full cost recovery

model per applicant served. The cost proposal shall include a breakdown of costs for service per applicant for each program area listed in the Programs to be provided section and should include all direct and indirect costs including, but not limited to overhead, fees, profit, equipment, materials, supplies, managerial support, all documents, forms and reproductions thereof, and travel to and from the work site or employee's normal workstation in a lump sum.

<b>Hours and Cost Estimate for project</b>

	Marketing Materials development and outreach	100		100		5	205

This first table shows a breakdown of staff time. It is anticipated that John Schmidt, our Grant administrator, and Housing Rehab Specialist will do the majority of this work. He will also have our Grant Specialist shadowing to learn his work, but that is not an expense of the project. This will be to provide back-up and support for the project as it expands and develops into the 18 communities. Based on the information in the RFP, \$3,000,000 is allocated to housing rehab, with a maximum of \$15,000 per project. We anticipate 15 hours of the Grant Administrators time per project-equaling 200 projects. For the additional

\$1,000,000 allocated to Septic rehabilitation projects at a maximum of \$35,000 we have allocated 10 hours to this program management and permitting.

Additionally, the table shows time for Marketing Materials development and review. We have allocated 205 hours to this beginning stage of the program. This also involves outreach to all the 18 entitlement communities. We intend to bring flyers to City Hall, Libraries and other community areas. We also would propose to be on all Council agendas in the Winter of 2022/Spring of 2023 to further our outreach and communication with potential interested parties. Outreach is an on-going process, but in the first phase of the program, we propose a comprehensive, strategic approach to all the communities. Several of the 18 communities are members with the MWVCOG so we already have several mechanisms we communicate and collaborate about potential opportunities with our members.

This next table shows the total cost to administer the program. It shows staffing wages-breakdown of cost for each primary employee and a breakout of fringe benefits.

**1.7 Cost Control.** Provide information on how you will control project costs to ensure all work is completed within the negotiated budget for the project. Include the name and title of the individual responsible for cost control.

McRae Carmichael will work closely with John Schmidt to always understand our current workload. We will have weekly meetings to review the current projects and schedule and where we are with all submittals. We track our times

There will be extensive coordination between all departments to track time and make sure we are maximizing our efficiency at each stage of the process. MWVCOG have several staff that can assist with various roles in the application process. Staff will review workload weekly and shift responsibilities if needed to ensure the proper work product and tracking is occurring.

**1.8 References.** Provide at least three (3) references (names, email addresses and current phone numbers) from recent projects similar in scope and size. Include a brief description of each project associated with the reference, and the role of the respective team member(s) who would be assigned to the project.

Please see Attachment 3.
