TITLE

Consider approval of price agreements for Commercial Asphalt Concrete Pavement and CSS-1 Asphalt Cements for FY 2023-2024.

Issue, Description & Background

In May 2023 a Request For Proposal PW1379-23 for the purchase of Commercial Asphalt Concrete Pavement and CSS-1 Asphalt Cements was advertised through Oregon Buys and Oregon Daily Journal of Commerce. Quotes for the solicited products were received by the following firms with plants in the listed cities: Houck Construction Materials, Inc. (Salem); Knife River Corporation - Northwest (Salem);

The department will obtain materials from the vendor based on the combination of product availability, price and transportation to the work site. This provides a fair distribution of public money and a savings to the citizens of Marion County.

Financial Impacts:

For FY22-23, Public Works has budgeted approximately \$660,000 for Commercial Asphalt Concrete Pavement.

Impacts to Department & External Agencies

There will be no impact to other County Departments, and the firms providing these products will benefit from a better distribution of public funds to purchase these products.

Options for Consideration:

1. Approve the contracts for Commercial Asphalt Concrete Pavement and CSS-1 Asphalt Cements with all of the contracts as described above.
2. Deny approval of the contracts for Commercial Asphalt Concrete Pavement and CSS-1 Asphalt Cements.

Recommendation:

It is the recommendation of the Public Works department that the Board chooses option 1, approve the contracts for Commercial Asphalt Concrete Pavement and CSS-1 Asphalt Cements.

REQUEST FOR AUTHORIZATION OF CONTRACT PW-5539-23

Date: 7/5/23
To: Chief Administrative Officer
Cc: Contract File
From: Jeniffer Scales

I. Subject: Retroactive

The Marion County Public Works Department is requesting approval of a retroactive contract as described in Section 10-0580 of the Marion County Public Contracting Rules. The contract is with Roy Houck Construction for Commercial Asphalt Concrete Pavement and CSS-1 Asphalt Cements with a value of \$100,000 and will be effective retroactive to 7/1/2023 upon approval.

A. BACKGROUND

Marion County Public Works purchases asphalt materials from several suppliers throughout Marion County. Our operations department maintains the county road system by paving, shoulder rocking, graveling, grading, etc. and these materials are an essential component.

B. As required in Section 10-0580(2)(a), Department staff will provide an explanation of why the contract was not submitted before performance began:

The RFP process was started in April 2023 and due to a backlog of other contracts, employee transitions and new employees, the awarded contracts were not executed by July 1. The prior contracts expired on June 30, 2023.

C. As required in Section 10-0580(2)(b), Department staff will provide a description of the steps being taken to prevent similar occurrences in the future:

Complete training of new employees and begin the next RFP process earlier to allow more time for negotiation and processing.

SECTION 00190 - MEASUREMENT OF PAY QUANTITIES

Comply with Section 00190 of the Standard Specifications modified as follows:

00190.20(a) General - Replace the paragraph that begins "Unless otherwise provided in the Contract, Pay ..." with the following paragraph:

Unless otherwise provided in the Contract, Pay Items to be measured by weight shall include all Contractor costs for providing, maintaining, inspecting, and testing scales; for furnishing appropriate weigh tickets; for self-printing scales; for electronic weigh memo system(s); and for transporting Materials to the scales or to check weighing.

00190.20(f)(1) Scale with Automatic Printer - Replace the paragraph that begins "If the scales have an automatic weigh memo printer ..." with the following paragraph:

If the scales have an automatic weigh memo printer or an approved electronic weigh memo system that does not require manual entry of gross weight information, the Agency may periodically have a representative at the scales to observe the weighing procedures. In addition, the Engineer may periodically check the weight for a load of Materials by directing the haul vehicle to reweigh on a different scale that has been inspected and certified according to 00190.20(b) and 00190.20(d).

00190.20(f)(2) Scale Without Automatic Printer - Replace the sentence that begins "The Contractor shall inform the Engineer of ..." with the following sentence:

The Contractor shall inform the Engineer of its intent to use a scale without an automatic printer at least 3 working Days before weighing begins or before the Contractor changes to a scale that does not have an automatic printer.

Add the following paragraph after the paragraph that begins "If the scales require manual entry...":

Pay costs for the weigh witness at \$35.00 per hour.

00190.20(f)(3) Duties of Weigh Technician - Replace the bullet that begins "Furnish a legible, serially numbered weigh memo ..." with the following bullets:

- Furnish a legible, serially numbered weigh memo for each load of Materials to the Agency's Materials receiver at the point of delivery, or as directed by the Engineer. The memo shall identify the Project, the Materials, the date, net weight (gross and tare as appropriate), and identification of the vehicle and weigh technician. If approved by the Engineer an electronic weigh memo system may be used. Requests to use an electronic weigh memo system shall be submitted to the Engineer according to 00150.37, providing sufficient detail for the Engineer to perform an evaluation. If approved, the Contractor shall provide training, technical support, reports, and weigh memo information to the Engineer at no additional cost to the Agency. The electronic weigh memo system shall be:
 - Capable of recording and securely retaining the same required "weigh memo" information identified above. For retention see 00170.07(c).

 - Designed in such a way that the data electronically read from scales cannot be altered by the Contractor, Subcontractor, Supplier, Engineer, or other system users.
 - Designed to allow the Engineer remote access to all the weigh memo data in real-time and allow the Engineer to add comments to the individual weigh memo regarding waste, temperature, stations, yield, or other information. The system shall identify the system user or individual that adds comments to the electronic weigh memo or otherwise access the system. The Contractor shall provide the Engineer a means to access the data if the Engineer cannot use an Agency provided handheld device for access.
 - Capable of providing all the weigh memo information, including any added comments, in an electronic data file the Engineer can easily access without proprietary software.

00190.20(g) Agency-Provided Weigh Technician - Delete this section.

00190.30 Plant Scales - Add the following paragraph after the paragraph that begins "The Contractor, with the Engineer's written...":

If approved by the Engineer an electronic weigh memo system may be used in place of a printer system. See 00190.20(f)(3).

SECTION 00195 - PAYMENT

Comply with Section 00195 of the Standard Specifications modified as follows:

00195.10 Payment for Changes in Materials Costs - Replace this subsection with the following subsection:

00195.10 Asphalt Cement Material Price Escalation/De-escalation - An asphalt cement escalation/de-escalation clause will be in effect during the life of the Contract.

The Agency reserves all its rights under the Contract, including, but not limited to, its rights for suspension of the Work under 00180.70 and its rights for termination of the Contract under 00180.90, and this escalation/de-escalation provision shall not limit those rights.

(a) Monthly Asphalt Cement Material Price (MACMP) - The Monthly Asphalt Cement Material Price (MACMP) is established by the Agency each month. For the actual MACMP, go to the Agency website at:

<https://www.oregon.gov/ODOT/Business/Pages/Asphalt-Fuel-Price.aspx>

The MACMP is based on selling prices of asphalt cement published by Poten & Partners, Inc. for primarily PG 64-22 paving grades in the Portland, Oregon area and typical non-modified paving grades in the Boise, Idaho area. The MACMP for a given month is the average of the weekly published prices for each area reported each Friday in that month. If any portion of the Project Site is located within the boundaries of ODOT Maintenance District 13 or 14, the MACMP will be based on the prices for the Boise, Idaho area. If no portion of the Project Site is within the boundaries of ODOT Maintenance District 13 or 14, the Contractor may elect to have the MACMP based on the prices of either the Portland, Oregon area or the Boise, Idaho area. If electing to use Boise, Idaho area prices for determination of the MACMP, the Contractor shall notify the Engineer in writing of the Contractor's election before or within 7 Calendar Days after the date of the preconstruction conference. This election, once acknowledged by the Engineer, will be binding for the entire duration of the Contract. If no such written notification is made, the Portland, Oregon area prices will be used as the basis of the MACMP. The area selected as the basis of the MACMP, once chosen, will become the sole area to be used as the basis for all asphalt cement used on the Project.

If the weekly prices cease to be available from Poten & Partners, Inc. for any reason, the Agency, in its discretion will select and begin using a substitute price source or index to establish the MACMP each month. The Agency does not guarantee that asphalt cement will be available at the MACMP.

(b) Base Asphalt Cement Material Price (Base) - The base asphalt cement material price for this Project is the MACMP published on the Agency website for the month immediately preceding the Bid Opening date.

(c) Monthly Asphalt Cement Adjustment Factor - The monthly asphalt cement adjustment factor will be determined each month as follows:

- If the MACMP is within $\pm 5\%$ of the Base, there will be no adjustment.

- If the MACMP is more than 105% of the Base, then:

$$\text{Adjustment Factor} = (\text{MACMP}) - (1.05 \times \text{Base})$$

- If the MACMP is less than 95% of the Base, then:

$$\text{Adjustment Factor} = (\text{MACMP}) - (0.95 \times \text{Base})$$

(d) Asphalt Cement Price Adjustment - A price adjustment will be made for the items containing asphalt cement listed below. The price adjustment as calculated in (c) above will use the MACMP for the month the asphalt is incorporated into the Project. The price adjustment will be determined by multiplying the asphalt incorporated during the month for subject Pay Items by the Adjustment Factor.

The Pay Items for which price adjustments will be made are:

Pay Item(s)

- Emulsified Asphalt for Tack Coat
- Asphalt in Emulsified Asphalt Chip Seal
- Asphalt in Multiple Application Emulsified Asphalt Surface Treatment
- Emulsified Asphalt in Mixture
- Recycling Agent

00195.12(d) Steel Materials Pay Item Selection - Add the following paragraph to the end of this subsection:

No Pay Items under this Contract qualify for the steel escalation/de-escalation program for this Project.

00195.50(a) Progress Payments - Replace the paragraph that begins "The estimates upon which progress payments are ..." with the following paragraph:

The estimates upon which progress payments are based are not represented to be accurate estimates. All estimated quantities are subject to correction in the final estimate. If the Contractor uses these estimates as a basis for making payments to Subcontractors and Suppliers, the Contractor assumes all risk and bears any losses that result.

SECTION 00730 - EMULSIFIED ASPHALT TACK COAT

Comply with Section 00730 of the Standard Specifications modified as follows:
