SECTION A - PROGRAM DESCRIPTION

1. STATEMENT OF PURPOSE

See Section A of the attached Project MOA.

2. LEGISLATIVE AUTHORITY

23 U.S.C. Section 204.

3. PROJECT BACKGROUND AND SCOPE

See Section E of the attached Project MOA.

4. STATEMENT OF WORK

This agreement provides for funding of a progression of project activities. Initially only preliminary design is eligible for reimbursement. Final design, utility relocation, right of way acquisition (including negotiations and offers) will not be eligible for reimbursement until an environmental decision document has been completed and approved by Federal Highway Administration – Western Federal Lands Highway Division (FHWA). If FHWA's environmental decision document indicates significant impacts or identifies the preferred alternative to be a "no-build" alternative, then this agreement will be terminated with no eligibility for funding post environmental decision activities. Construction will not be eligible for reimbursement until the Final PS&E package is approved.

FHWA and Marion County (Recipient) may amend or terminate this agreement to adjust to project development, environmental, or construction needs.

A. Preliminary Design

1. Design

1.1. Perform a site survey as necessary to support the design and environmental compliance needs of the project.

1.2. Prepare and submit a preliminary plan package to FHWA. The preliminary plan package shall reflect the work as described in the Project Description above. Any deviations from the described work must be approved in writing by FHWA. Include a preliminary cost estimate with the preliminary plan package.

2. Environmental Compliance

Note: Federally funded projects must fully comply with all requirements of the National Environmental Policy Act (NEPA). An appropriate range of reasonable alternatives will be evaluated for this project based on its scope and extent. Amendments to the scope of this may be required upon completion of the environmental clearance document and decision.

2.1. Coordinate environmental compliance efforts with FHWA environmental staff. Utilizing the information provided through work performed under this agreement, FHWA will write an independent environmental decision document.

2.2. Support FHWA in environmental compliance efforts, coordinate, develop and complete tasks including resource surveys, studies and assessments for documentation

2.2.1.a. FHWA will take the federal lead for Section 106 of the National Historic Preservation Act (NHPA) compliance and perform tribal consultation.

2.2.1.b. Recipient through a qualified archeologist shall perform resource surveys of the area of potential effect (APE) for the project area in compliance with Department of Interior guidelines. If the APE includes land owned or controlled by the federal government, then obtain a permit from the federal land management agency to conduct resource surveys in accordance with the Archaeological Resources Protection Act. Prepare and submit to FHWA a report documenting Section 106 findings and recommendations that complies with applicable State Historic Preservation Office (SHPO) standards for use in Section 106 consultation.

2.2.2. Wetlands

2.2.2.a. Recipient through a qualified wetland biologist to identify the presence or absence of wetlands or other waters of the U.S. within the project area. Wetlands believed to be under the jurisdiction of the U.S. Army Corps of Engineers (USACE) should be identified. This may include but is not limited to referencing the National Wetland Inventory or

local wetland inventory, NRCS soil survey maps, and field observations.

2.2.2.b. If no potential wetlands are observed within the project area, these findings can be documented in a short report submitted to FHWA.

2.2.2.c. If potential wetlands exist in the project area, delineate and document wetlands in accordance with the USACE 1987 Wetland Delineation Manual and submit the information to FHWA.

2.2.3. Threatened & Endangered (T&E) Species and Essential Fish Habitat (EFH)

The biologist will obtain updated T&E species lists for the project area from the US Fish and Wildlife Service (USFWS) and, if appropriate, NOAA Fisheries Service.

2.2.3.b If there are no T&E species or EFH within the project area or the proposed project would have no effect to any T&E species or no adverse effect on EFH within the project area, the biologists/botanist shall prepare and submit to FHWA a written finding documenting the finding and the basis for their conclusion.

2.2.3.c If there are T&E species within the project area and the project may affect these species, prepare and submit to FHWA a Biological Assessment (BA) following USFWS and/or NOAA guidelines.

2.2.3.d If the project may affect threatened or endangered species, FHWA will perform Section 7 consultation as appropriate with USFWS and NOAA Fisheries Service. If appropriate, include consultation for EFH.

A. PURPOSE OF THIS AGREEMENT:

This agreement documents the intent of the parties and sets forth the anticipated responsibilities of each party in the development, construction, and continued maintenance of the subject project. The purpose of the agreement is to identify and assign responsibilities for Project Development, Contract Advertisement, and Construction Administration as appropriate for this project, and to ensure continued maintenance of the facility for public use if improvements are made. The parties understand that any final decision as to design or construction will not be made until after the environmental analysis required under the National Environmental Policy Act (NEPA) is completed (this does not prevent the parties from assigning proposed design criteria to be studied in the NEPA process.) Any decision to proceed with the design and construction of the project will depend on the availability of appropriations at the time of obligation and other factors such as issues raised during the NEPA process, a natural disaster that changes the need for the project, a change in Congressional direction, or other relevant factors.

If Federal Lands Access Program (FLAP) funds are used for the development or construction of this project, Marion County agrees to provide a matching share equal to 10.27% of the total cost of the project, as detailed more fully in Section J below. When agencies other than FHWA-WFL will be expending FLAP funds, the parties agree to execute a separate obligating document. No reimbursement will be made for expenses incurred prior to execution of the obligating document.

B. AUTHORITY:

This Agreement is entered into between the signatory parties pursuant to the provisions of 23 U.S.C. 204 and ORS 110.

C. JURISDICTION AND MAINTENANCE COMMITMENT:

Marion County has jurisdictional authority to operate and maintain the existing facility and will operate and maintain the completed project at its expense.

D. FEDERAL LAND MANAGEMENT AGENCY COORDINATION:

Marion County has coordinated project development with the Willamette National Forest. The Willamette National Forest's support of the project is documented in the Project Proposal by endorsing the proposal.

Each party to this agreement who has a primary role in NEPA, design or construction should coordinate their activities with the Federal Land Management Agency.

E. PROJECT BACKGROUND / SCOPE:

The proposed project is located along North Fork Road in Marion County, Oregon. The proposed project would begin at approximate Milepost (MP) 4.90 and would end at approximate MP 5.50. This project is located at approximate coordinates 44.800529 N, 122.477194 W.

The North Fork Road provides Access to the Willamette National Forest, including the Opal Creek Scenic Recreation and Wilderness Area, Opal Creek Ancient Forest Center, and the Bull of the Woods Wilderness Area. The Route provides access for tourists, youth camps, and recreational activities including fishing, camping, and swimming opportunities. The Road also provides access to private timber lands.

This section of the roadway has been experiencing recurring landslide and stability problems for decades. Four (4) slides have been identified in this area and are numbered Slide 1 through 4. The road segment in question had been paved up until 2007, when the road was pulverized and returned to a gravel surface to reduce maintenance costs associated with continual patching and repair of the moving ground surface. It was again pulverized in 2014.

In 2011, Slide #1 was stabilized by Marion County, as a Forest Highway project. This project aims to address and stabilize the three remaining Slides.

This project is proposed to address the following items:

- Stabilization and/or mitigation of Slides #2, #3, and #4
- Reconstruction of the Roadway to a 22-foot-wide asphalt concrete paved surface with 2-foot-wide gravel shoulders, including miscellaneous associated work with this construction, including but not limited to, culverts, excavation, signage, striping, guardrails, earth retaining structures, etc.

Project work also includes the acquisition of right-of-way and construction easements, as well as utility relocation

A geotechnical report produced by a Consultant was completed in 2013, and is the initial guide for proposed repairs on the project, and sets out the numbering convention for the individual slides.

With approval of the project, the PDC has set in place the following additional criteria for the project.

- The budget for the project is fixed. If in the event funding is not sufficient to complete the full stabilization of all three slides, priority should be given in the following order:
 - Slide #2
 - Slide #4
 - Slide #3

- FHWA-WFL Geotechnical staff should be involved in close oversight of the stabilization decisions, and design review.

F. PROJECT BUDGET:

This is the anticipated budget for the project based on information developed to date. Federal Lands Access Program funds in conjunction with matching funds provided by Marion County will fund this project as detailed in Section K.

K. MATCHING SHARE REQUIREMENTS:

The purpose of this section is to document the intent of Marion County to meet its match requirement for the subject project as authorized under section 23 USC 201(b)(7)(B).

All FLAP expenditures associated with this project will need to be matched by a Non- Federal source, by other Federal funds other than those made available under Titles 23 and 49 of the United States Code, or by funds made available under 23 U.S.C. 202 and 203. The matching requirement under the FAST Act will be met by Marion County.

Marion County and other agencies have committed to the project. The forms of match shall be those consistent with the 'Federal-Aid Guidance Non-Federal Matching Requirements' and as approved by FHWA-WFL. In the state of Oregon, 10.27% of the total project cost.

This project is authorized to use a Tapered Match. Under this approach, the non-Federal match is imposed over the entire project rather than individual progress payments. Timing of all fund transfers are specified in the Funding Plan. Tapered Match is authorized because it will result in an earlier completion date.

Estimated costs and fiscal year (FY) for the funding are based on the best budgeting and scheduling information known at the time. The final match will be determined based on actual expenditures at the conclusion of project work. Matching cash funds in FHWA-WFL receipt may need to be supplemented, or returned, once actual expenditures are determined. As noted under Modifications, if costs increase over the amount within this agreement, FHWA-WFL will consult with the agency(ies) providing Match before granting approval.

Maintain all project records, including source documentation for all expenditures and in-kind contributions, for a period of three (3) years from the date of final acceptance. If any litigation claim, negotiation, or audit has been started before expiration of the three-year period, the records shall be retained until completion of the action and resolution of all issues that arise from it.

The following agencies have agreed to contribute the amounts shown which will reduce the federal share by the same amount. The Funding Plan is as follows:

Agency	Phase	Form	Due	Value	Comments
Marion County	CN	<i>In-Kind</i>	11/01/2021	\$ 712,052	Combination of Cash and In-Kind
Marion County	CE	<i>In-Kind</i>	11/01/2021	\$ 40,000

2 CFR 200 Common Rule Requirements and other legal requirements

A. GENERAL TERMS AND CONDITIONS

Background. To promote accelerated and efficient delivery of projects that benefit Federal Land Management Agencies, the Secretary has exercised his discretion under 23 U.S.C. § 201(a) and § 204(a)(3) to apply Title 23 U.S.C. Chapter 1 requirements (Federal Aid requirements) to Federal Lands Access Projects delivered by State Departments of Transportation (DOTs) and local public agencies that are evaluated and certified by State DOTs to deliver Federal Aid projects. In instances where a local public agency is not certified to deliver Federal-aid projects and Federal Lands Access projects are delivered by the local public agency cooperatively with Federal Lands Highway Division office oversight, the government-wide Common Rule (2 CFR 200) will be applied. This cooperative relationship will enable the FLH to identify any federal law issues in cooperation with the local public agency which may arise in the project development and delivery process.

1. The Agreement provides funds on a reimbursable basis to the Servicing Agency for the project described in the Access Program Project Memorandum of Agreement.
2. The Government's liability to make payments to the Servicing Agency under the Agreement is limited to those funds obligated by the Government under the Agreement as indicated herein and by any subsequent amendments agreed to in writing by all parties.
3. The Servicing Agency agrees to abide by and comply with all terms and conditions of the Agreement and to abide by, and comply with, all requirements of applicable law, including those specified in this Attachment, which are considered as an integral part of the Agreement.
4. In the case of any inconsistency or conflict between the specific provisions of the Agreement and this Attachment, such inconsistency or conflict shall be resolved by giving preference to the Agreement.
5. The Servicing Agency shall be responsible for ensuring that the Project is designed and/or constructed in accordance with the Agreement, and all applicable Federal laws, regulations and policies of the Federal Highway Administration ("FHWA" also referred to herein as the "Government").
6. Reimbursement of costs incurred pursuant to the Agreement will be made pursuant to and in accordance with 2 CFR Part 200 and the provisions of such regulations and procedures as the Government may prescribe. Determination of allowable costs incurred by the Servicing Agency under the Agreement shall be made in accordance with applicable government-wide cost principles under 2 CFR 200. Closeout of the Agreement shall be based upon a determination that all applicable administrative actions and all required work of the Agreement have been completed in accordance with 2 CFR Part 200. Upon the Government's review of all financial, performance, and other reports required as a condition of the Agreement, the Government may make any upward or downward adjustments to the allowable costs in accordance with 2 CFR 200.
7. The Servicing Agency agrees to carry out and complete the Project without undue delays and in accordance with the terms of the Agreement, including the Project Schedule set out in the Agreement, or in the Access Program Project Memorandum of Agreement if no Schedule is included in this Agreement, and comply with such regulations and procedures as the Government may prescribe.
8. The Servicing Agency agrees to retain all documents relevant to the Project for a period of three years from completion of the Project and receipt of final reimbursement from the Government. The

Servicing Agency agrees to furnish the Government, upon request, all documents and records pertaining to the Project.

9. The Government is subject to the Freedom of Information Act (FOIA). The Servicing Agency should therefore be aware that all materials submitted by the Servicing Agency related to the Agreement will become agency records and thus are subject to FOIA and to public release through individual FOIA requests.

10. The Government shall not be responsible or liable for any damage to property or any injury to persons that may arise from, or be incident to, performance or compliance with this the Servicing Agency's work under the Agreement. See Executive Order 13513 "Federal Leadership on Reducing Text Messaging While Driving", Oct. 1, 2009 (available at <http://edocket.access.gpo.gov/2009/E9-24203.htm>) and DOT Order 3902.10 "Text Messaging While Driving", Dec. 30, 2009, as implemented by Financial Assistance Policy Letter (No. FAP-2010-01, Feb. 2, 2010, available at http://www.dot.gov/sites/dot.dev/files/docs/FAPL_2010-01.pdf) This includes, but is not limited to, the Servicing Agency:

The Civil Rights Restoration Act of 1987 clarified the original intent of Congress, with respect to Title VI and other Non-discrimination requirements (The Age Discrimination Act of 1975, and Section 504 of the Rehabilitation Act of 1973), by restoring the broad, institutional-wide scope and coverage of these non-discrimination statutes and requirements to include all programs and activities of the Servicing Agency, so long as any portion of the program is Federally assisted.

Specific Assurances

More specifically, and without limiting the above general Assurance, the Servicing Agency agrees with and gives the following Assurances with respect to its receipt of funds for this project:

1. The Servicing Agency agrees that each "activity," "facility," or "program," as defined in §§ 21.23 (b) and 21.23 (e) of 49 CFR § 21 will be (with regard to an "activity") facilitated, or will be (with regard to a "facility") operated, or will be (with regard to a "program") conducted in compliance with all requirements imposed by, or pursuant to the Acts and the Regulations.
2. The Servicing Agency will insert the following notification in all solicitations for bids and requests for proposals for work or materials, regardless of funding source:

5. That where the Servicing Agency receives Federal financial assistance to construct a facility, or part of a facility, the Assurance will extend to the entire facility and facilities operated in connection therewith.
6. That where the Servicing Agency receives Federal financial assistance in the form, or for the acquisition of real property or an interest in real property, the Assurance will extend to rights to space on, over, or under such property.
7. That the Servicing Agency will include the clauses set forth in Appendix C and Appendix D of this Assurance, as a covenant running with the land, in any future deeds, leases, licenses, permits, or similar instruments entered into by the Servicing Agency with other parties:
 - a. for the subsequent transfer of real property acquired or improved under the applicable activity, project, or program; and
 - b. for the construction or use of, or access to, space on, over, or under real property acquired or improved under the applicable activity, project, or program.
8. That this Assurance obligates the Servicing Agency or any transferee for the longer of the following periods:
 - a. the period during which the property is used for a purpose for which the Federal funds were extended, or for another purpose involving the provision of similar services or benefits; or

10. The Servicing Agency agrees that the United States has a right to seek judicial enforcement with regard to any matter arising under the Acts, the Regulations, and this Assurance.

By signing the Agreement, the Servicing Agency also agrees to comply (and require any sub- recipients, contractors, successors, transferees, and/or assignees to comply) with all applicable provisions governing the FHWA's access to records, accounts, documents, information, facilities, and staff.
