MacLaren Youth Correctional Facility

- Located in Woodburn, Oregon
- OYA's largest close-custody facility
- Houses about 272 male youth

MacLaren YCF and Hillcrest YCF Consolidation

- Why did we consolidate facilities (MYCF and HYCF)?
 - Budget note
 - Facilities 10 year plan
 - The need to have our physical environments developed to support our agency culture
 - Consolidation Project

Consolidation Process

Set the foundation

- Staffing teams and schedules realigned to meet campus operation's needs (Campus Operations, Food Services, Medical Clinic, and the Support Team)
- Blended Team meetings across both campuses are underway

Bringing the two teams together....

- A new leadership structure was developed and leadership team selected
- Both facilities combined hiring practices in October 2016 and were considered one facility for hiring purposes and shift bidding.
- Work groups comprised of both HYCF staff, managers and stakeholders

Transition Planning & Move Logistics

- Over (20) workgroups were led to redevelop all operational aspects of the facility.
- Partnered with Central office units to plan and execute the physical move of units from HYCF to MYCF.

May 2017

- (3) Units transitioned to the Maclaren campus during the third week in May: Gamma (SUD), Sigma 9SUD), and Omega (General Population)
- A revised level system has been implemented that promotes specific behaviors in youth, reinforces the development of youth, helps create safe spaces for youth to engage, and promotes positive development
- A family orientation has been developed and implemented for families of youth coming into the facility.
- A revised property ordering system and youth property guidelines have been implemented to keep youth property on units within reasonable limits
- Several improvements to the visitation schedule, check-in process, materials for families, and facility signage has been implemented.

August 2017

- The four remaining units at Hillcrest relocated to Maclaren during the last two weeks of August.
 - Units that relocated:
 - Alpha (Intake),
 - Delta (Intake),
 - Epsilon (PV), and
 - Zeta (Mental Health)
- Intake and clinic functions relocated to MacLaren
- Two MacLaren units moved out of the Geer Compound (now referred to as The Plaza) into the new Courtyard buildings
 - SITP (Behavior Health) and The University of Life (emotionally reactive population)

OYA youth vs. DOC/M11 youth?

- All youth afforded the same or similar services based off specific needs (education, vocational training, treatment planning/groups, etc)
- Housing: Juvenile Committed youth and DOC/M11 youth are cohoused/managed
 - Older “DOC” youth are often stabilizers on units
 - We remain cognizant on mixing populations in respect to ages, treatment needs, risk factors, state of change/readiness, etc.
- Some population and case management decisions move through different processes: population management inter-facility, transition planning, release decisions, etc.
 - Indeterminate (OYA) vs. determinate (DOC/m11)

Educational and Vocational Programming

- Services and programs include:
 - Lord High School: high school diploma and GED programs
 - Online college education
 - Treatment services
 - Vocational education
 - Lattice program
