

Preventing hMPXV in Congregate Settings

Communicate with staff, volunteers, and residents about hMPXV prevention & provide proper personal protective equipment (PPE)

Create an action plan if staff, volunteers, or residents get hMPXV (see attached)
Monitor individuals who may have been in contact with someone who was infected with hMPXV

Clean and disinfect areas of high traffic & provide soap, hand sanitizer with at least 60% alcohol

If your facility has the capacity to store and administer vaccine, please consider screening for hMPXV vaccination eligibility for [Oregon Health Authority guidance](#), and administering Jynneos vaccine as a prevention strategy. Call (503) 588-5342 and ask to speak to the nurse manager to discuss obtaining a supply of Jynneos vaccine doses.
