

Katherine Sullivan

2024 Outstanding Department Volunteer for Public Works

Katherine is being recognized for her service with the Emergency Management Program

We are thrilled to recognize Kathy, a volunteer whose dedication and initiative have strengthened our Emergency Management Program.

Seeing the need for renewed leadership in the Keizer CERT Program, Kathy stepped forward to create a two-person leadership team—ensuring continuity, preserving vital records, and preventing future disruptions.

She dedicates countless hours to outreach events, representing CERT's mission to the public and helping build a stronger, more informed team.

She regularly helps in the office - updating equipment, monitoring inventories, and improving how we work with volunteers.

She consistently goes above and beyond what's expected, taking the initiative to work on all kinds of tasks and projects—from cleaning and organizing supplies to conducting thorough inventories and recommending new or replacement equipment.

Kathy recently proposed and implemented a new system for tracking CERT equipment and public outreach materials, adapting and refining them through ongoing dialogue with staff.

Working closely with fellow CERT members and Emergency Management staff, she organized outreach activities and scheduled much needed refresher trainings. Kathy's thoughtful leadership and partnership have made the CERT Program stronger, more connected, and more resilient.

Please join us in celebrating Kathy—a volunteer whose commitment, creativity, and collaborative spirit have truly made a difference.
