**Tour of Coffin Butte Landfill & PRC (Pacific Region Compost)**

The tour began with everyone meeting at the Deepwood Garden Composting Demonstration Site. From there the group traveled to Coffin Butte Landfill.

Once at the Coffin Butte Landfill Aaron talked to the group about what Coffin Butte Landfill takes and the processes they have in place. From here the group went out to the landfill site and was able to watch the process of how the material is disposed of.

From Coffin Butte the group traveled to the Pacific Region Compost facility and John spoke to the group about their composting process as well as their inoculant material that they put in the compost to help it break down faster.

Once done touring these sites the group traveled back to the Deepwood Garden Composting Demonstration site where the tour was completed.

Meeting Adjourned at 4:30 p.m.
