

WANTED

Name: Tansy Ragwort (*Senecio jacobea*)

Aliases: Stinking Willie

Description: Biennial or perennial with numerous branches, bright yellow daisy-like flowers in clusters at the top, irregularly lobed leaves and a taproot

Last seen: In fields, pastures, and along roadsides

Charge: Poisoning livestock; displacement of grazing plants

NOTE: This plant is controlled effectively by approved biocontrols. Utilizing other control methods limits the viability and success of the biocontrols.
