

**NOTICE OF DECISION  
PROPERTY LINE ADJUSTMENT CASE NO. 19-025**

**APPLICATION:** Application of Keith and Ketty Paasch and Leo DiBala to adjust the property lines on a 1.77 acre parcel, a 1.79 acre parcel, and a 1.19 acre parcel to create a 1.8 acre parcel, a 1.79 acre parcel, and a 1.19 acre parcel in a SA (Special Agriculture) zone located at 11815 and 11885 Riverhaven Ln. SE, Stayton. (T9S; R1E; Section 14DC; tax lots 100, 200 and 300).

**DECISION:** Notice is hereby given that the Planning Director for Marion County has **APPROVED** the above described request subject to certain conditions.

**EXPIRATION DATE:** Title transfer instruments accomplishing the property adjustments shall be recorded by the applicants with the Marion County Clerk by **September 3, 2021**. The effective period may be extended for an additional year subject to approval of an extension (form available from the Planning Division). **Additional extensions may not be granted if the regulations under which this decision was granted have changed since the original approval.**

**WARNING:** A decision approving the request is for land use purposes only. Due to septic, well and drainfield replacement areas, this parcel may not be able to support the proposal. To be sure the subject property can accommodate the proposal the applicant should contact the Building Inspection Division, (503) 588-5147.

**This decision does not include approval of a building permit.**

**CONDITIONS:** The following conditions must be met before a building permit can be obtained or the approved use established:

1. **Property line adjustment deeds shall be recorded with the Marion County Clerk meeting requirements identified in ORS 92.190(4).** The deeds shall contain the names of the parties, the description of the adjusted lines, references to original recorded documents and signatures of all parties with proper acknowledgment. The deeds shall include a perimeter description of each resulting parcel. **This property line adjustment is not complete until the title transfer instruments accomplishing the property adjustments are recorded by the applicants with the Marion County Clerk.**
2. The applicants shall have the parcels surveyed per ORS 92.060 (7). The survey shall be filed with the County Surveyor and shall contain the notation that the survey is the result of Property Line Adjustment Case 19-025. (Final Plat Instructions enclosed). Deed recording reference numbers shall be noted on the required survey.
3. **Prior to recording the deeds or filing the survey,** the applicants shall obtain any septic review and/or evaluations that may be required from the Marion County Building Inspection Division.
4. **Prior to recording the deeds or filing the plat,** the applicants shall obtain any septic review and/or evaluations that may be required from the Marion County Building Inspection Division.
5. The resulting lots shall significantly conform to the site plan submitted with the proposal. Minor variations are permitted upon review and approval of the Planning Director.

**ADDITIONAL CONDITIONS:** Once the approved use is established the following conditions must be continually satisfied:

6. After the property line adjustment has been completed, no alteration of property lines shall be permitted without first obtaining approval from the Planning Director.

**OTHER PERMITS, FEES, AND RESTRICTIONS:** This approval does not remove or affect any covenants or restrictions imposed on the subject property by deed or other instrument. The proposed use may require permits and/or fees from other local, State or Federal agencies. This decision does not take the place of, or relieve the responsibility for obtaining other permits or satisfying any restrictions or conditions thereon. It is recommended that the agencies mentioned in Finding #6 be contacted to identify restrictions or necessary permits.

7. Prior to recording the plat all taxes due must be paid to the Marion County Tax Office (at 503-588-5215 for verification of payments).
8. All conditions in the original partition approval, Partition Case P83-3, continue to apply to the properties.
9. Once the deeds are recorded Property Line Adjustment Case PLA18-040 is no longer valid.

**APPEAL PROCEDURE:** The Marion County Zone Code provides that certain applications be considered first by the County Planning Director. If there is any doubt that the application conforms with adopted land use policies and regulations the Director must condition or deny the application. Anyone who disagrees with the Director's decision may request that the application be considered by a Marion County hearings officer after a public hearing. The applicant may also request reconsideration (one time only and a fee of \$200) on the basis of new information subject to signing an extension of the 150 day time limit for review of zoning applications.

A public hearing is held on appeals subject to the appellant paying a \$250.00 fee. Requests for reconsideration, or consideration by a hearings officer, must be in writing (Appeal Form available from the Planning Division) and received in the Marion County Planning Division, 5155 Silverton Road NE, Salem, by 5:00 p.m. on **September 3, 2019**. If you have questions about this decision contact the Planning Division at (503) 588-5038 or at the office. This decision is effective **September 3, 2019** unless further consideration is requested.

**FINDINGS AND CONCLUSIONS:** The findings and conclusions on which the decision was based are noted below.

1. The subject properties are designated Special Agriculture in the Marion County Comprehensive Plan and correspondingly zoned SA (Special Agriculture). The primary intent of both this designation and zone is to promote and protect commercial agricultural operations.
2. The properties are located on the west side of Riverhaven Lane SE in the 11800 block. The properties were created as a result of Partition Case P83-3 and considered legally created parcels.
3. Adjacent properties consist of rural home sites, naturally timbered properties and farmed parcels in an SA (Special Agriculture) zone.
4. Soil Conservation Service Soil Survey of Marion County indicates the properties are 99% high-value farmland soils.
5. In Property Line Adjustment Case PLA18-040 the applicants received approval to adjust the property line on a 1.77 acre parcel (tax lot 200) and a 1.19 acre parcel (tax lot 100) to create a 1.82 acre parcel and a 1.14 acre parcel. After the PLA18-40 decision became final the applicants decided include tax lot 300 in the proposal, however, it was to modify that request. As a result, they filed a new application to adjust the property lines on a 1.77 acre parcel, a 1.79 acre parcel, and a 1.19 acre parcel to create a 1.8 acre parcel, a 1.79 acre parcel, and a 1.19 acre parcel. If the applicants are approved and complete this adjustment, PLA18-040 becomes void.
6. Marion County Onsite Wastewater Specialist commented that Parcel 1, which is getting larger, requires a record review only and that Parcel 2 requires a Site Evaluation. An Existing System Evaluation was recently completed on Parcel 3, therefore, no action necessary.

Marion County Surveyors Office commented: "Must be surveyed per ORS 92.060 (7) and the survey submitted for review. Survey checking fee required at the time of review. Property line adjustment deeds shall be recorded with the Marion County Clerk's Office prior to submitting the property line adjustment survey. Deed recording reference numbers shall be noted on the survey map. Per ORS 92.190 (4): The deed shall contain the names of the parties, the description of the adjusted line, references to original recorded documents and signatures of all parties with proper acknowledgment. [See Marion County Zoning Code MCC 16.33.140(E) and MCC 17.172.120(E)]. Marion County Planning requires perimeter descriptions of the resultant properties."

Marion County Tax Office provided information regarding taxes on the subject properties.

7. The criteria for reviewing lot line adjustments within an SA zone are listed in Chapter 17.137.090(C) of the Marion County Code (MCC). These criteria are as follows:
- A. *When one or more lots or parcels subject to a proposed property line adjustment are larger than the minimum parcel size pursuant to MCC17.137.090(A)(1), the same number of lots or parcels shall be as large or larger than the minimum parcel size after the adjustment. When all lots or parcels subject to the proposed adjustment are as large or larger than the minimum parcel size, no lot or parcel shall be reduced below the applicable minimum parcel size. If all lots or parcels are smaller than the minimum parcel size before the property line adjustment, the minimum parcel size pursuant to this section does not apply to those lots or parcels.*
  - B. *If the minimum parcel size in MCC17.137.090(A)(1) is larger than 80 acres, and a lot or parcel subject to property line adjustment is smaller than the minimum parcel size but larger than 80 acres, the lot or parcel shall not be reduced in size through property line adjustment to less than 80 acres.*
  - C. *Any property line adjustment shall result in a configuration of lots or parcels that are at least as suitable for commercial agriculture as were the parcels prior to the adjustment.*
  - D. *A property line adjustment may not be used to:*
    - 1. *Decrease the size of a lot or parcel that, before the relocation or elimination of the common property line, is smaller than the minimum lot or parcel size for the applicable zone and contains an existing dwelling or is approved for the construction of a dwelling, if the abutting vacant tract would be increased to a size as large as or larger than the minimum tract size required to qualify the vacant tract for a dwelling;*
    - 2. *Decrease the size of a lot or parcel that contains an existing dwelling or is approved for construction of a dwelling to a size smaller than the minimum lot or parcel size, if the abutting vacant tract would be increased to a size as large as or larger than the minimum tract size required to qualify the vacant tract for a dwelling; or*
    - 3. *Allow an area of land used to qualify a tract for a dwelling based on an acreage standard to be used to qualify another tract for a dwelling if the land use approval would be based on an acreage standard.*
  - E. *Any property line adjustment that results in an existing dwelling being located on a different parcel shall not be subject to the standards in MCC 17.137.030(A) so long as the adjustment:*
    - 1. *Does not increase the any adverse impacts on the continued practice of commercial agriculture on the resulting parcels; and*
    - 2. *Does not increase the potential number of dwellings on the resulting parcels.*
8. All three properties are less than 80 acres in size; the minimum parcel standards do not apply. None of the properties, due to size, shape, and existing development are able to be farmed. The potential number of dwellings would not be increased. The property lines are not being changed in such a way as to relocate an existing dwelling onto a different parcel. The proposal meets the criteria in #7.
9. Under MCC 17.172.120(E) property line adjustment deeds shall be recorded with the Marion County Clerk's Office prior to submitting the property line adjustment survey. Deed recording reference numbers shall be noted on the required survey.
10. The resulting lots shall significantly conform to the site plan submitted with the proposal. Minor variations are permitted upon review and approval of the Planning Director.
11. Based on the above findings and conclusions, the proposal meets the criteria for a property line adjustment in an SA zone and is, therefore, **APPROVED**, subject to conditions.

Joe Fennimore  
Director-Planning Division
