

**NOTICE OF DECISION  
PROPERTY LINE ADJUSTMENT CASE NO. 19-028**

**APPLICATION:** Application of Anthony Smith, Jamie Sewell, and Jer-Ann LLC to adjust the property lines on a 321.2 acre parcel and a 2.07 acre parcel to create a 320 acre parcel and a 3 acre parcel in an EFU (Exclusive Farm Use) zone located at 19111 River Road NE, St Paul. (T4S; R2W; Section 30; tax lots 600 and 601).

**DECISION:** The Planning Director for Marion County has **APPROVED** the above-listed Property Line Adjustment application subject to certain conditions.

**EXPIRATION DATE:** Title transfer instruments accomplishing the property adjustments shall be recorded by the applicants with the Marion County Clerk by **October 22, 2021**. The effective period of an approved application may be extended for an additional year subject to approval of an extension (Extension form available from the Planning Division). **Additional extensions may not be granted if the regulations under which this decision was granted have changed since the original approval.**

**WARNING:** A decision approving the proposed uses is for land use purposes only. Due to septic, well and drainfield replacement areas, this parcel may not be able to support the proposed activities. To be sure the subject property can accommodate the proposed use the applicant needs to check with the Building Inspection Division, (503) 588-5147.

**This decision does not include approval of a building permit.**

**CONDITIONS:** The following conditions must be met before a building permit can be obtained or the approved use established:

1. **Property line adjustment deeds shall be recorded with the county clerk meeting requirements identified in ORS 92.190(4).** The deeds shall contain the names of the parties, the description of the adjusted lines, references to original recorded documents and signatures of all parties with proper acknowledgment. The deeds shall include a perimeter description of each resulting parcel. **This property line adjustment is not complete until the title transfer instruments accomplishing the property adjustments is recorded by the applicants with the Marion County Clerk.**
2. Deed recording reference numbers shall be noted on the required survey.
3. The applicants shall have the 3 acre parcel surveyed per ORS 92.060 (7). The survey shall be filed with the County Surveyor and shall contain the notation that the survey is the result of Property Line Adjustment Case No. 19-028. (Final Plat Instructions enclosed).
4. The resulting parcels shall significantly conform to the site plan submitted with the proposal. Minor variations are permitted upon review and approval by the Planning Director.

**ADDITIONAL CONDITIONS:** Once the approved use is established the following conditions must be continually satisfied:

5. After the property line adjustment has been completed, no alteration of property lines shall be permitted without first obtaining approval from the Planning Director.

**OTHER PERMITS, FEES, AND RESTRICTIONS:** This approval does not remove or affect any covenants or restrictions imposed on the subject property by deed or other instrument. The proposed use may require permits and/or fees from other local, State or Federal agencies. This decision does not take the place of, or relieve the responsibility for obtaining other permits or satisfying any restrictions or conditions thereon. It is recommended that the agencies mentioned in Finding #6 below be contacted to identify restrictions or necessary permits.

**APPEAL PROCEDURE:** The Marion County Zone Code provides that certain applications be considered first by the County Planning Director. If there is any doubt that the application conforms with adopted land use policies and regulations the Director must condition or deny the application. Anyone who disagrees with the Director's decision may request

that the application be considered by a Marion County hearings officer after a public hearing. The applicant may also request reconsideration (one time only and a fee of \$200) on the basis of new information subject to signing an extension of the 150 day time limit for review of zoning applications.

A public hearing is held on appeals subject to the appellant paying a \$250.00 fee. Requests for reconsideration, or consideration by a hearings officer, must be in writing (form available from the Planning Division) and received in the Marion County Planning Division, 5155 Silverton Road NE, Salem, by 5:00 p.m. on **October 22, 2019**. If you have questions about this decision contact the Planning Division at (503) 588-5038 or at the office. This decision is effective **October 23, 2019** unless further consideration is requested.

**FINDINGS AND CONCLUSIONS:** Findings and conclusions on which decision was based are noted below.

1. The subject properties are designated Primary Agriculture in the Marion County Comprehensive Plan and correspondingly zoned EFU (Exclusive Farm Use). The primary intent of both this designation and zone is to promote and protect commercial agricultural operations.
2. The properties are located on the west side of River Road NE approximately 2,600 feet northwest of its intersection with Vachter Road NE. The larger parcel identified as tax lot 600 contains farm buildings and was the subject of Farm Dwelling Application Case No. 96-7 (FD96-7), which approved the placement of a farm dwelling on the parcel. The smaller parcel identified as tax lot 601 contains a dwelling and was also the subject of FD96-77, which identified tax lot 600 and tax lot 601 as legally separate parcels. For this reason, tax lot 600 and tax lot 601 are separate lawfully created parcels for land use purposes.
3. All surrounding properties are zoned Exclusive Farm Use (EFU) and in farm use.
4. Soil Survey for Marion County, Oregon, indicates 98% of the soils on the subject properties are high value.
5. The applicants are proposing to adjust the property lines on a 321.2 acre parcel and a 2.07 acre parcel to create a 320 acre parcel and a 3 acre parcel.
6. Marion County Surveyors Office commented: “No survey required on the 320 acre parcel. The resultant property is greater than ten acres. The 3 acre parcel must be surveyed per ORS 92.060 (7) and the survey submitted for review. Survey checking fee required at the time of review. Property line adjustment deeds shall be recorded with the Marion County Clerk’s Office prior to submitting the property line adjustment survey. Deed recording reference numbers shall be noted on the survey map. Per ORS 92.190 (4): The deed shall contain the names of the parties, the description of the adjusted line, references to original recorded documents and signatures of all parties with proper acknowledgment. [See Marion County Zoning Code MCC 16.33.140(E) and MCC 17.172.120(E)]. Marion County Planning requires perimeter descriptions of the resultant properties.”
7. The criteria for reviewing lot line adjustments within an EFU zone are listed in Chapter 17.136.090(C) MCC. These criteria are as follows:
  - (a) *When one or more lots or parcels subject to a proposed property line adjustment are larger than the minimum parcel size pursuant to MCC 17.136.090(A)(1), the same number of lots or parcels shall be as large or larger than the minimum parcel size after the adjustment. When all lots or parcels subject to the proposed adjustment are as large or larger than the minimum parcel size, no lot or parcel shall be reduced below the applicable minimum parcel size. If all lots or parcels are smaller than the minimum parcel size before the property line adjustment, the minimum parcel size pursuant to this section does not apply to those lots or parcels.*
  - (b) *If the minimum parcel size in MCC 17.136.090(A)(1) is larger than 80 acres, and a lot or parcel subject to property line adjustment is smaller than the minimum parcel size but larger than 80 acres, the lot or parcel shall not be reduced in size through property line adjustment to less than 80 acres.*
  - (c) *Any property line adjustment shall result in a configuration of lots or parcels that are at least as suitable for commercial agriculture as were the parcels prior to the adjustment.*
  - (d) *A property line adjustment may not be used to:*

1. *Decrease the size of a lot or parcel that, before the relocation or elimination of the common property line, is smaller than the minimum lot or parcel size for the applicable zone and contains an existing dwelling or is approved for the construction of a dwelling, if the abutting vacant tract would be increased to a size as large as or larger than the minimum tract size required to qualify the vacant tract for a dwelling;*
  2. *Decrease the size of a lot or parcel that contains an existing dwelling or is approved for construction of a dwelling to a size smaller than the minimum lot or parcel size, if the abutting vacant tract would be increased to a size as large as or larger than the minimum tract size required to qualify the vacant tract for a dwelling; or*
  3. *Allow an area of land used to qualify a tract for a dwelling based on an acreage standard to be used to qualify another tract for a dwelling if the land use approval would be based on an acreage standard.*
- (e) *Any property line adjustment that results in an existing dwelling being located on a different parcel shall not be subject to the standards in MCC 17.136.030(A) so long as the adjustment*
1. *Does not increase the any adverse impacts on the continued practice of commercial agriculture on the resulting parcels; and*
  2. *Does not increase the potential number of dwellings on the resulting parcels.*
8. According to MCC 17.136.090(A)(1) the minimum lot size for a parcel in an EFU zone is calculated as follows:
- (a) *All parcels wholly or in part within 500 feet of the subject parcel shall be identified.*
  - (b) *The average (mean) size of all parcels larger than 40 acres identified in paragraph (a) of this subsection shall be determined.*
  - (c) *The acreage size calculated in paragraph (b) of this subsection, rounded to the nearest 10 acres, is the minimum parcel size, unless such parcel size is less than 80 acres, in which case the minimum parcel size is 80 acres.*
- There are four tax lots within 500 feet of the subject parcels that exceed 40 acres in size, with an average lot size of 129 (514.85/4) acres. Therefore, minimum parcel size in this instance is 80 acres.
9. One of the existing parcels is larger than the minimum lot size of 130 acres. After the adjustment, the larger of the resulting parcels will exceed the 130 acre minimum. The applicants are proposing to adjust the property lines by increasing the size of the smaller parcel by one acre to include two farm buildings currently on the larger parcel. The reconfiguration will not result in removal of land from agriculture production. The proposed property line adjustment does not seek to enlarge or reduce either parcel in order to qualify for the placement of a dwelling, where the parcel could not qualify for a dwelling before. For these reasons, the criteria in #7 are satisfied.
  10. MCC 17.172.120(E) requires property line adjustment deeds to be recorded with the Marion County Clerk. Each resulting property shall be described by a perimeter description on the recorded deed. This can be made a condition of any approval.
  11. The resulting lots shall significantly conform to the site plan submitted with the proposal. Minor variations are permitted upon review and approval of the Planning Director.
  12. Based on the above findings, the applicants' proposal meets the criteria for a property line adjustment in an EFU zone. The property line adjustment request is, therefore, **APPROVED**.

Joe Fennimore  
Director-Planning Division
