Subject: Conditional Use Application

Dear Planning Department,

Enclosed is our Conditional Use Application, payment of \$1450 and supporting documents for 8186 River Road NE Salem OR 97303 that would allow the applicant to operate an Industrial Machinery and Equipment Business as described in SIC 5084.

We trust that everything is in order for your acceptance and processing of this application. If not or there are questions relating to this matter, please feel free to let me know.

Thank you very much.

Sin

Roger Jensen  
Trustee

## **INTRODUCTION**

Roger Jensen, Trustee, is requesting a Conditional Use Permit for a tenant to operate an Industrial Machinery and Equipment Business as described in SIC 5084 at 8186 River Road in existing Building A and the surrounding land. The property is approximately 60 feet south of the intersection of River Road N and Quartz Street. It contains 1.58 acres, a caretaker dwelling connected to a storage building, a 4,000 SF Building A, and a 4,000 SF Storage Building B.

## **PROJECT DESCRIPTION**

As noted earlier, the subject property is located at 8186 River Road NE, Salem, OR 97303. The property is zoned Community Commercial and is highlighted on the enclosed Quinaby Community Plan. As shown on the plan, the nearby properties are zoned CC, IUC, and AR.

The proposed Industrial Machinery and Equipment business will be operated by a current tenant that we believe fits the permitted use of SIC 17 Special Contractor. However, after further review with the planning department, it was recommended that we apply for a conditional use that covers SIC 5084. The customers primarily served will be in the recycling industry, construction industry and industrial or Municipal water purification systems. Almost all the tenant's customers will not visit the property.

The use would remain in keeping with the surrounding uses in the area and will not force a significant change in, or significantly increase the cost of, accepted farm or forest practices on surrounding land devoted to farm or forest use.

The proposed use will not, by itself or in combination with existing uses in the community, result in public health hazards or adverse environmental impacts that violate state or federal water quality standards.

The proposed use will not, by itself or in combination with existing uses in the community, exceed the carrying capacity of the soil or existing water supply resources and sewer services. The current well, wastewater, and septic system were approved at the time of building construction, and this application, if approved, does not change the approved current use.

The traffic generated by the proposed use is consistent with the identified function, capacity, and level of service of transportation facilities serving the community. Truck deliveries to the property are minimal, with 1 to 2 large deliveries per week and daily UPS and FedEx deliveries, similar to a typical small business.

The proposed use will not create significant adverse effects on existing or permitted uses on adjacent land, considering factors such as noise, dust, and odors. A noise complaint was received regarding Building A before 7 AM, and we are taking action to mitigate sound with insulation and by performing quieter activities before 7 AM.

The southern 20 feet of the property has an easement that serves 2992 Aubrey Lane. 2962 Aubrey Lane has an easement south of the subject property but has permissive use of the lane over the subject property. There are some disputed issues regarding the use of this lane, and we expect opposition to our conditional use application over these concerns. However, we believe we are in full compliance with the recorded easement agreement.
