

2016 Gravel Road Tests:

Applying alternative Soil Stabilizes products

Initial Application Dates: June 21 -22

Marion County
Gravel Roads
highlighted in
"Yellow & Black"

4 Test Areas each approximately 1,500+ feet long

#A Grand View (south of Scotts Mills): Washboarding on straight hill with speeds accelerating

#B Hazelnut (east & west of Crooked Finger Rd): Straight road with traffic at speed approaching Stop intersection

#C Hazelnut (west of Heinz Rd): Straight road with a curve through residential using **Crushed-to-size Recycle Asphalt Chips** (as a binder / shoving in curves?)

#D McKillop (northeast of Abiqua Rd): Steep, switchback hill with minimal of rock; bedrock in road surface
