

O R E G O N

Helpful Information from the Surveyor's Office

The Marion County Surveyor's Office is here to provide service to the public, and to licensed land surveyors. The documents you may receive from this office include surveys, maps, plats, or other pertinent data relating to the location, structures and facilities on property owned by you or other citizens. How you choose to use this information may directly affect you, your neighbors, or the public.

Did you know only persons licensed to practice land surveying by the Oregon State Board of Examiners for Engineering and Land Surveying can legally locate and establish boundaries? We strongly encourage citizens to seek assistance from a Professional Land Surveyor if they need to locate a survey monument, property line, building setback, easement, or other services related to making measurements, descriptions, reports, and maps pertaining to the physical features of and improvements on the earth. You can find local land surveyors listed in the yellow pages, or on the Professional Land Surveyors of Oregon (PLSO) web page.

Our goal is to help you be successful with your task and to provide you the documents filed in the Marion County Surveyor's Office.

Marion County Surveyor

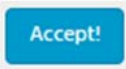

How to find a Survey Map

The following are steps to help you locate and view maps the county has on file.

1. Go to Marion County Oregon Surveyor's Office website by clicking on the following link:

<https://www.co.marion.or.us/PW/Survey> .

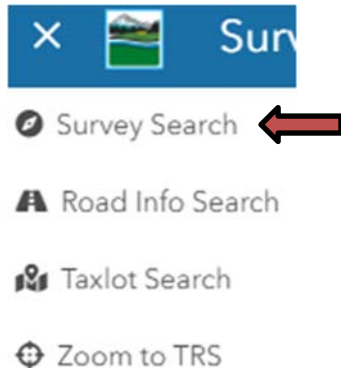

2. On the right hand column, under **Survey & Plat Research**, click on the [Internet Research Site](#) link, which will open up a Disclaimer page.

3. Read the Disclaimer and click the  button at the bottom of the page.

4. On the top blue bar, click on the three lines to the ***left of the Marion County Logo***, to show a drop down menu.

5. Click on **Survey Search** in the drop down menu.

How to find a Survey Map

6. The **Search for Surveys** box will open on the right hand side. Here you can search for your property via Tax #, Tax Account, or Situs Address. Typically we suggest using Situs Address (the address of the property you are looking for information on). To do that, start to enter the address and it should start to auto populate like this:

Search for Surveys

Basic Search | Adv Search | Options

Search by Location: ☐ ☐

Search by Attribute:

Survey or Plat #:

Sub Name:

Surveyor Name:

Search by Property:

Taxlot Number:

Tax Account:

Situs Address:

5155 SIL VERTON RD NE

Search

Click on the address and this will drill the map into your location and show any maps we have on record.

NOTE: Depending on your Internet Browser, you may get a pop-up window with links to maps, or you may get a pop-up blocked message. **See “Troubleshooting” section at end of these instructions**

7. To view more info on the maps associated with the above search type, on the bottom of the screen you will see a blue arrow pointing up,  click the blue arrow.

You will see several columns with different headings and a number of survey records associated with the property.

Survey Num	Survey Date	Surveyor	Survey For	Type
11234	1947-08-01	BATES	L D Egbert	Survey
11313	1947-12-01	BATES	L D Egbert	Survey
11847	1979-04-28	PAYNTER	Marion County	Survey
11856	1979-04-11	PAYNTER	Marion County	Survey

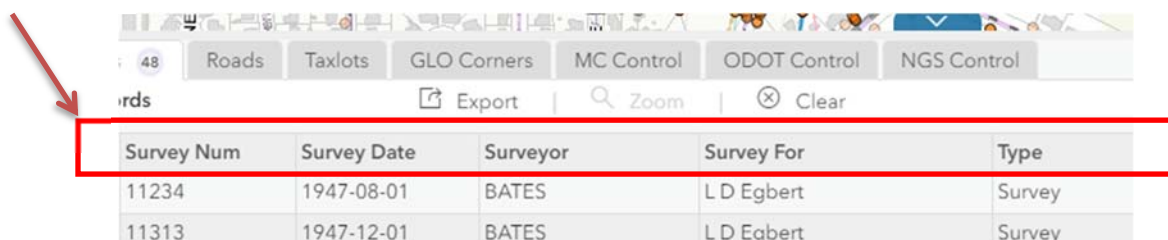

How to find a Survey Map

It is important to keep in mind that not every record shown pertains to the property searched. You will have to do your own research, and we do not interpret maps for you. You may reach out to the Surveyor of record, or hire a Surveyor of your choice for further information.

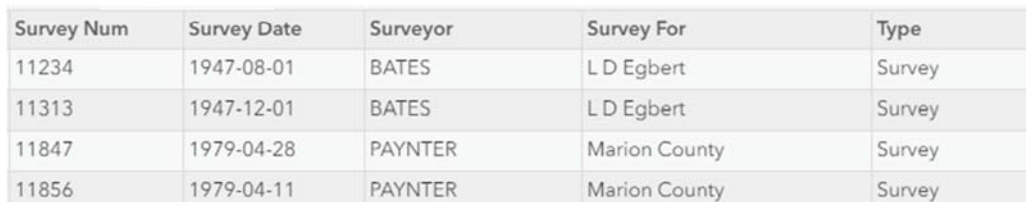

8. You can sort data by clicking on the header. E.g. Click on **Survey Date** to sort by oldest to newest or vice versa or click on **Survey For** to sort names alphabetically.

This is the header

Survey Num	Survey Date	Surveyor	Survey For	Type
11234	1947-08-01	BATES	LD Egbert	Survey
11313	1947-12-01	BATES	LD Egbert	Survey

9. Clicking on the survey # (E.g. ##### or P##-### or S##-####)

Survey Num	Survey Date	Surveyor	Survey For	Type
11234	1947-08-01	BATES	LD Egbert	Survey
11313	1947-12-01	BATES	LD Egbert	Survey
11847	1979-04-28	PAYNTER	Marion County	Survey
11856	1979-04-11	PAYNTER	Marion County	Survey

This will highlight in blue, dots that resemble monuments used to point tag the general vicinity the survey took place. You may need to zoom out on the map to see which dots are being highlighted. This will help you sort which surveys you would like to look at for your research.

How to find a Survey Map

10. Once you choose a survey you want to view, click on the row to highlight it. This will open an option to view record.

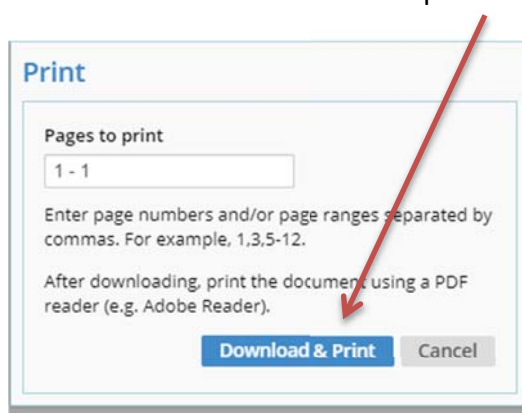

A screenshot of a web application interface. At the top, there is a toolbar with buttons: 'View Record' (with a document icon), 'Export' (with a download icon), 'Zoom' (with a magnifying glass icon), and 'Clear' (with a close icon). Below the toolbar is a table with the following columns: 'Survey Date', 'Surveyor', 'Survey For', 'Type', 'SubType', and 'Subd'. The first row of the table is highlighted in blue and contains the following data: '1947-08-01', 'BATES', 'LD Egbert', 'Survey', and empty cells for 'SubType' and 'Subd'. A red arrow points from the text above to the 'View Record' button.

Survey Date	Surveyor	Survey For	Type	SubType	Subd
1947-08-01	BATES	LD Egbert	Survey		

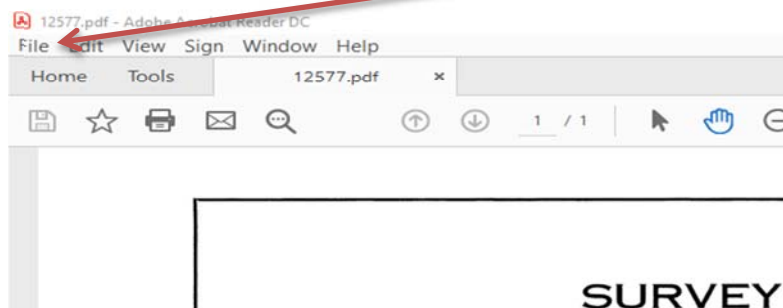

Click on “View Record” and the map will open in a separate tab.

11. If you would like to download the image for your records, in the tab the map opened in you will see a printer icon with the words PDF next to it:  PDF click on it.

Click on the Download & Print option.

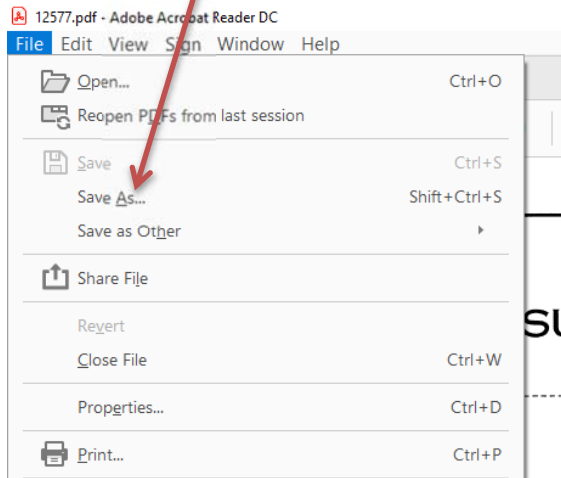

This will open the image in a PDF window. From there click “File” at the top of the screen which will give you a drop down menu.

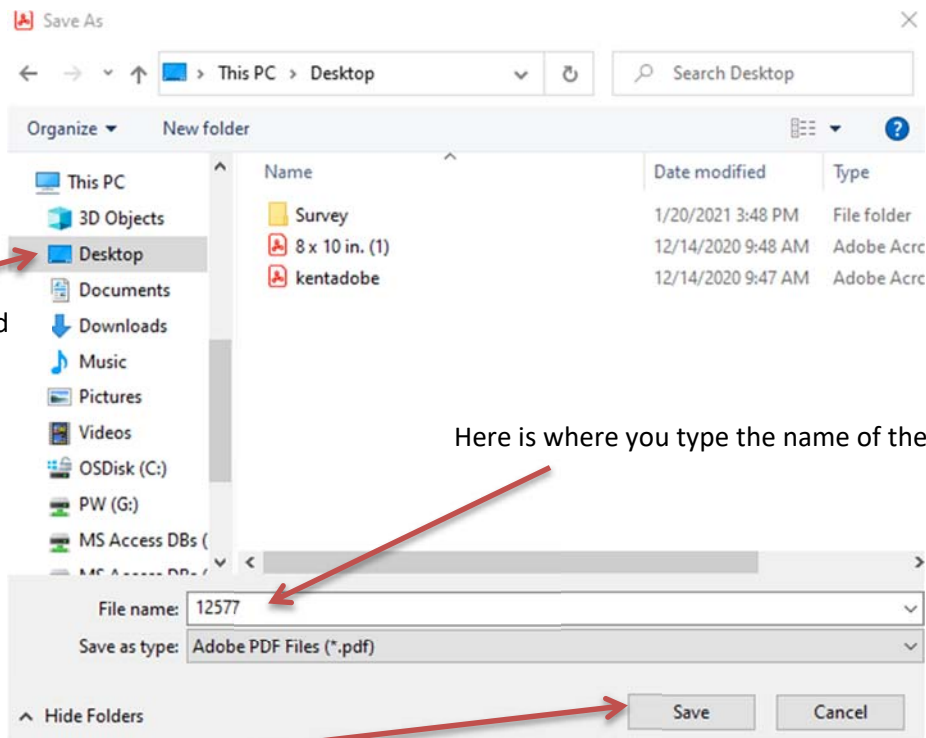

How to find a Survey Map

Next click "Save As".

12. Select where you want the file saved and name the file.

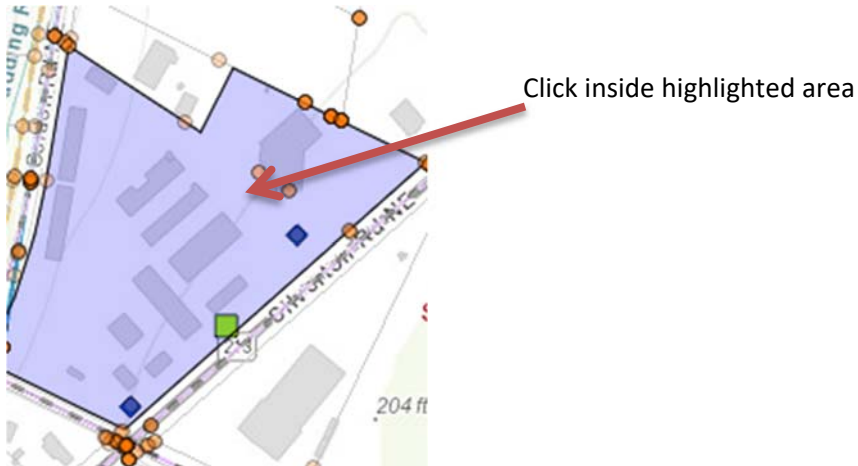

13. Click "Save" and now you have a copy of the file for your records to view.

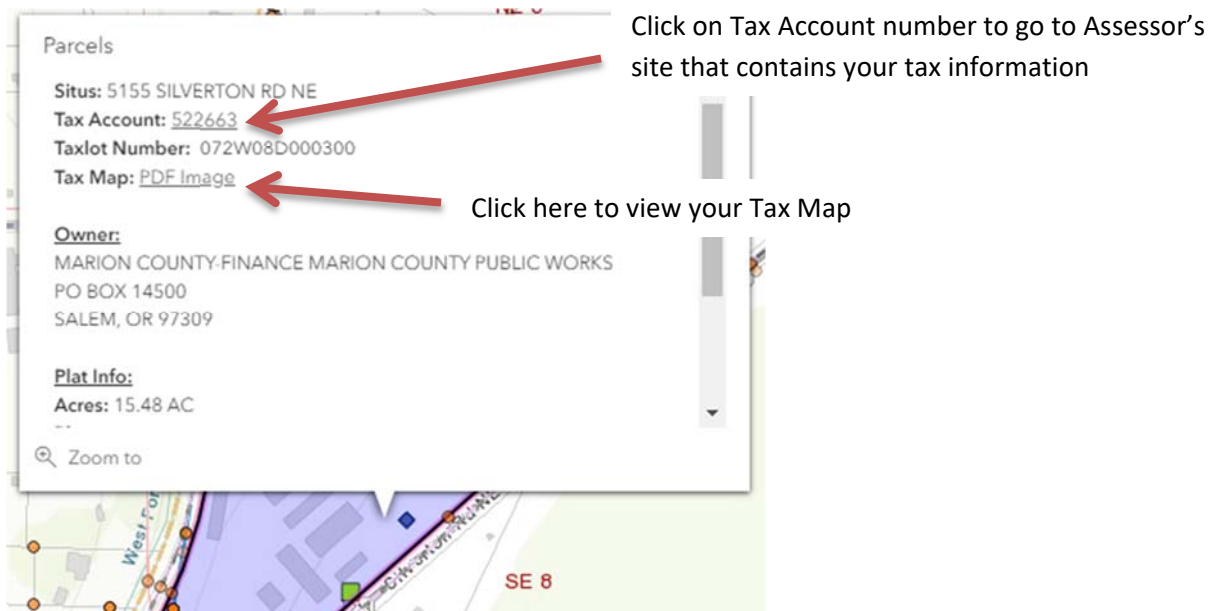

How to find a Survey Map

Finding your Tax Lot Number and Tax Lot Map

When you pull up your property on the map (Step 6 in the previous directions) it should highlight your property on the map. Like this:

Click in the highlighted area and a window will pop up with information about your property including Tax Account, Taxlot Number, and Tax Map. Like this:

How to find a Survey Map

Clicking on the Tax Account number will take you to a screen on the Assessor's website that looks like this:

The screenshot shows the Marion County Assessor's Property Records website. The header includes the Marion County logo and the title "Assessor's Property Records". Below the header, there are three tabs: "Property Search", "Property Summary", and "Printable Summary". The "Printable Summary" tab is selected, and a red arrow points to it. The main content area displays property information for a specific account.

Property Identification	
Account No.:	522663
Old Account No.:	R22663
Situs Address:	5155 SILVERTON RD NE SALEM, OR 97305
Map Tax Lot:	072W08D000300
Owner:	MARION COUNTY-FINANCE MARION COUNTY PUBLIC WORKS PO BOX 14500 SALEM, OR 97309
Related Accounts:	R332044
Linked Accounts:	
Manufactured Home ID:	
Legal Description:	ACRES 15.48
Subdivision:	

Buttons: GIS Interactive Viewer, Assessor Map PDF

Clicking on the "Printable Summary" tab will open up another page with a list of information on that property including: Property Identification, Owner History, Property Details, Value Information, Assessment History, and Tax Information. Some deed information may be listed or shown. While we don't store that information at the Survey Office, you can use it to go to the Clerk's Office and research the deeds.

Additional Search Tools

There are 2 additional tools you can use to search for maps in a larger area.

1. Select "Survey Search" and then click on "AdvSearch" tab.

A screenshot of a web form titled "Search for Surveys" with a close button (X) in the top right. The form has three tabs: "Basic Search", "Adv Search" (which is selected and highlighted with a red arrow), and "Options". Below the tabs, there are two columns of search criteria. The left column is labeled "Search by Location:" and has two checkboxes. The right column is labeled "Search by Attribute:" and has three text input fields. Below these, there is a section labeled "Search by Property:" with a text input field. The form is styled with a light gray background and white text.

Search for Surveys X

Basic Search Adv Search Options

Search by Location: ☐ ☐

Search by Attribute:

Survey or Plat #: _____

Sub Name: _____

Surveyor Name: _____

Search by Property:

Taxlot Number: _____

The box will now look like this:

A screenshot of the same "Search for Surveys" web form, but with the "Adv Search" tab selected. The form now includes additional search criteria. The "Search by Location:" section remains. The "Search by Road:" section has a text input field. The "Search by PLSS:" section has three dropdown menus for "Township" (showing "7S"), "Range" (showing "1W"), and "Section" (empty). At the bottom, there are two buttons: "Search" (blue) and "Clear" (white).

Search for Surveys X

Search by Location: ☐ ☐

Search by Road:

Road Name: _____

Search by PLSS:

Township 7S

Range 1W

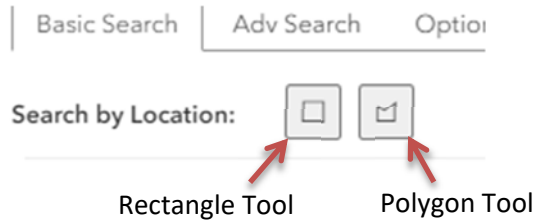

Section

Search Clear

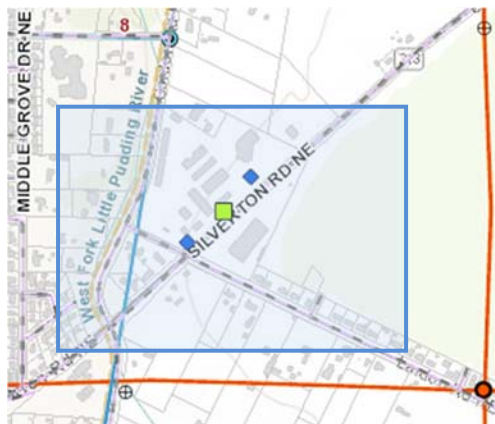

How to find a Survey Map

2. Select the Rectangle image or the Polygon image.

3. Draw a rectangle or polygon around the area you want to search.

View using rectangle tool

View using polygon tool

NOTE – Double click to change the polygon tool back to a regular cursor

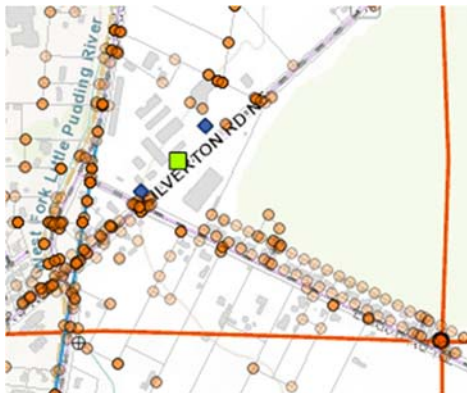

How to find a Survey Map

4. This will highlight dots that resemble monuments used to point tag the general vicinity the survey took place. It will create a list of maps we have on file for that entire area.

Before – no highlighted dots

After – highlighted dots

5. To view a particular map do the same steps as previously mentioned.

How to find a Survey Map

Troubleshooting:

Some Internet Browsers do not work well with our ISGI Maps. We suggest either Chrome or Edge.

If, when clicking on the map image, you get a Laserfiche error, close the tab and try clicking the map image again.

Some streets with apostrophes are not searchable. You may need to scroll into your area, or try searching a nearby street to drill down to your location.

Some Tax Account numbers create invalid search results. Try the Situs Address or Taxlot Number.

The surveys associated with a property search might not give you all the surveys relating to that property. If you do not get many results, try the more technical advanced search option below.

Getting more technical:

In the Search for Surveys box, you can use the Search by Location buttons to draw rectangles or polygons around properties and roads.

If looking for DLC's you can click the **Adv Search** tab in the Search for Surveys box. Select your Township, Range, and in Section type the DLC # (hint, DLC #'s are greater than 36). It will change Section to DLC.

Search for Surveys **Options** tab allows you to select specific data to show/hide.

The gear image in the top blue bar allows you to select specific maps to show/hide.

NOTICE

The Marion County Surveyor's Office is the **LIBRARY** of public record survey maps in Marion County. We can guide you to the maps, but we do not interpret the maps for you. If you need someone to interpret the map, please contact the Surveyor of record, or a Surveyor of your choice.

We hope you find this guide helpful. If you have further questions or need further assistance, please call us at: **503-588-5155**.
