APPLICANTS STATEMENT

Applicant understands and agrees no cross connections or having the capability of a cross connection will be permitted.

Applicant hereby makes application to the Brooks Community Service District for water service for a commercial facility.

Water Main and Lateral Line Extensions – Applicant understands all costs for proposed water and/or lateral extensions required to provide service under this permit are the responsibility of applicant. This may include, but is not limited to, planning, engineering, materials, labor, installation, etc. All submittals shall be engineered with

pre-construction prints meeting District Engineer and Oregon Health Division approval. All completed construction shall be inspected by representatives of the Brooks Commercial Water District (District) and meet all requirements and specifications including submittal of construction as-built plans prior to final acceptance.

Applicant understands the District will accept these improvements from the mainline to the point of delivery into the District and maintain them as a part of the District not less than one year after the completion of the improvements. The point of delivery is to the customer's meter. Said acceptance is subject to the satisfaction of the District Engineer. Applicant is responsible for all corrective maintenance work during the referenced period prior to acceptance by District.

Service Line - Applicant agrees to bear all costs associated with installation of necessary equipment and materials, including, but not limited to, any new meter, backflow device, valves, saddle taps, boxes and service lines, and shall be installed to District standards according to the approved plot plan.

Applicant will furnish, own, install and maintain at applicant's expense, all piping, plumbing, equipment and faucets located beyond the point of delivery. This includes repair or replacement of the meter. Applicant understands the District shall not be liable for loss or damage of any nature whatsoever caused by any defect in the piping or equipment upon the premises of the business.

Applicant understands this permit does not grant permission to construct anything in the public right-of-way. A separate Marion County permit is required to perform work in a public right-of-way. In addition, Applicant must obtain any permits required by Marion County Building Inspection.

Applicant hereby agrees and covenants to indemnify, defend and hold harmless the Brooks Commercial Water District, its governing body, its officers and agents from any and all claims for injury, damage, loss, liability, cost or expense, including court and appeal costs and reasonable attorney fees or expenses, arising from any casualty or accident to person or property by reason of any construction, excavation or any other act done under this permit by Applicant, Applicant's agents or employees or by reason of any neglect or omission of Applicant in safeguarding the work.

Applicant shall permit the representatives, servants and agents of the District to enter upon the above referenced property for the purpose of reading meters, making repairs, maintenance and inspections without further formal notice by District.

Applicant hereby warrants the above information is true to the best of Applicant's knowledge and belief, and accepts and approves the terms and provisions contained and attached hereto, including the special provisions. Permits for construction expire one (1) year from the date of issue.
