				Contract for the hauling and recycling of electronic waste collected at						
				SKRTS and North Marion. This contract is retroactive back to July 1, 2017.						
				2017.						
				Public Works has been contracting with Garten Services since 2008						
				under the State of Oregon's QRF program. It came to our attention						
				that the services provided by Garten Services in this contract may not						
				actually meet the specific requirements spelled out under the QRF						
				program and that we may have flexibility in selecting another contractor.						
				Once we were informed that Garten Services was still a QRF provider						
				for these services, we sent them a contract. However they needed to						
				have the State review the terms of our contract again to be sure that						
				it's in compliance with the QRF rules. In all this process took much longer than anticipated, in part because of staff turnover at the State						
				and because our own internal interpretation required input from						
				several people. This was a unique circumstance that we don't foresee						
				happening again so we do not anticipate this delay in the contracting						
				process in the future.						
				Amendment 1 makes the contract retroactive back to July 1, 2017,						
				which should have been the case when the contract was originally						ŀ
