# Additional information

## What is the deductible?

Your plan's deductible is the amount of money that you pay first, before your plan starts to pay. You'll see that many services, especially preventive care, are covered by the plan without you needing to meet the deductible. The individual deductible applies if you enroll without dependents. If you and one or more dependents enroll, you and your dependents must satisfy the family deductible before benefits are paid.

In-network expense and out-of-network expense apply together toward your deductible.

## What is the out-of-pocket limit?

The out-of-pocket limit is the most you'll pay for covered services during the benefit year. Once the out-of-pocket limit has been met, the plan will pay 100 percent of allowed amounts for covered services for the rest of that benefit year. The individual out-of-pocket limit applies only if you enroll without dependents. If you and one or more dependents enroll, you and your dependents must satisfy the family out-of-pocket limit. Be sure to check your handbook, as there are some charges, such as non-essential health benefits, penalties, and balance billed amounts that do not count toward the out-of-pocket limit.

Note that there is a separate category for in-network and out-of-network when it comes to meeting your out-of-pocket limit.

## Payments to providers

Payment to providers is based on the prevailing or allowable fee for covered services. In-network providers accept the allowable fee as payment in full. Services of out-of-network providers could result in out-of-pocket expense in addition to the percentage indicated.

## Prior authorization

Coverage of certain medical services and surgical procedures requires a benefit determination by PacificSource before the services are performed. This process is called prior authorization. Prior authorization is necessary to determine if certain services and supplies are covered under this plan, and if you meet the plan's eligibility requirements. Prior authorization does not change your out-of-pocket expense for in-network and out-of-network providers. You can search for procedures and services that require prior authorization on our website, [Authgrid.PacificSource.com](https://Authgrid.PacificSource.com) (select Commercial for the line of business).

## Discrimination is against the law

PacificSource Health Plans complies with applicable federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex. PacificSource does not exclude people or treat them differently because of race, color, national origin, age, disability, or sex.

The copayment and/or coinsurance for prescription drugs obtained from an in-network or out-of-network pharmacy are waived during the remainder of the benefit year in which you have satisfied the medical out-of-pocket limit.

### **Important information about your vision benefits**

Your plan includes coverage for vision services. To make the most of those benefits, it's important to keep in mind the following:

**In-network Providers:** PacificSource is able to add value to your vision benefits by contracting with a network of vision providers. Those providers offer vision services at discounted rates, which are passed on to you in your benefits.

**Paying for Services:** Our provider contracts require in-network providers to bill us directly whenever you receive covered services and supplies. Providers will verify your vision benefits.

In-network providers should not ask you to pay the full cost in advance. They may only collect your share of the expense up front, such as copayments and amounts over your plan's maximum benefit.

If you are asked to pay the entire amount in advance, tell the provider you understand they have a contract with PacificSource and they should bill PacificSource directly.

**Sales and Special Promotions (sales and promotions are not considered insurance):** Vision retailers often use coupons and promotions to bring in new business, such as free eye exams, two-for-one glasses, or free lenses with purchase of frames. Because in-network providers already discount their services through their contract with PacificSource, your plan's in-network benefits cannot be combined with any other discounts or coupons. You can use your plan's in-network benefits, or you can use your plan's out-of-network benefits to take advantage of a sale or coupon offer.

If you do take advantage of a special offer, the in-network provider may treat you as an uninsured customer and require full payment in advance. You can then send the claim to PacificSource yourself, and we will reimburse you according to your plan's out-of-network benefits.
