MOORE SURVEYING

Verle C. Moore
Professional Land Surveyor
May 20, 1991

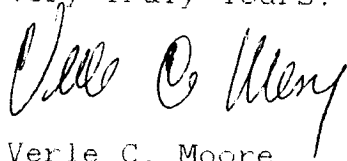

13779 Myers Ln S
Jefferson
FP 91-8

Mr. Wendell Kreder
13759 Myers Lane S.
Jefferson, Oregon 97352

Dear Mr. Kreder,

We have established an elevation at the white house porch to be 191.29 feet and the ground at the porch to be 189.5 feet. the brown house porch is 191.44 feet. a railroad spike in a 22 inch fir which is 75 feet south of the white house is 189.94 feet. a high spot in the area with a ribbon on a tree is 189.90 and a hub at the site of 13799 Myers Lane South is elevation of 189.83 feet above mean sea level. The Bench Mark used for this survey was a brass disk in concrete C 140 (USAE) About 0.9 mile west of Talbot on Buena Vista-Jefferson Highway. in a triangular shaped area formed by a "T" intersection. USAE control station disk in concrete base. Elevation 176.533.

Very Truly Yours,

Verle C. Moore
