#### **PROCEDURE** (subject to change):

- A. Once a complete application is received, the Planning Division will request comments from other County departments and affected agencies and special districts.
- B. A public hearing before a Marion County Hearings Officer, to take place in approximately 4-6 weeks, will be scheduled. The applicant will be notified by letter of the date for the public hearing.
- C. Planning staff will review the application for compliance with the County Comprehensive Plan, County Zone Code, Statewide Planning Goals, and other applicable ordinances and regulations and prepare a staff report for the public hearing. A copy of the staff report will be mailed to the applicant at least 7 days prior to the hearing.

Notice of the public hearing will be mailed to the applicant and property owners within the notification area not less than 21 days prior to the scheduled hearing. #### **APPLICATION REQUIREMENTS:**

**Do not double-side or spiral bind** any documents being submitted as our office will be scanning this information.

Incomplete applications will not be accepted. A complete application consists of the following that must be submitted:

- A. The attached application form filled out in ink.
- B. Copy of the officially recorded title transfer instrument (deed, warranty deed, or contract) that shows the legal description for the parent parcel. Available at the Clerk's Office, 2<sup>nd</sup> floor, 555 Court St. NE, Salem.
- C. Site Plan (see attached example). The site plan should be on a separate 8½ x 11 sheet of paper, drawn in ink, and show the change in zoning, location of any proposed use, and distance from other structures, property lines, roads and other features. The site plan must be reviewed and initialed as accepted by a Plans Examiner from the Marion County Building Inspection Division.
- D. A written statement explaining your reasons for the proposal and how your request conforms to Marion County land use policies and regulations of the applicable zone. A copy of the zone regulations is available from the Planning Division.
- E. Filing fee: Make check payable to Marion County.

<u>Please note:</u> Land development fees are charged by various offices within Marion County Public Works. Most development requests are reviewed by a number of these offices and there <u>may</u> be several fees you will incur during the development process. Customers can mistakenly believe the first fee(s) they pay covers all the costs for their development request. For example, if this partition application is approved you will be required to pay a Partition Plat Check fee to the County Surveyor (503-588-5155). Contact the Planning Division for more information.

NOTE: If all of the required information is not submitted with the application form, it will not be accepted. If the application is withdrawn after a file has been set up or fee deposited, the entire fee cannot be refunded. Partial refunds are at the discretion of the Planning Division based on the amount of staff work undertaken.

### **Applicant Statement** (required)

It is up to the applicant to fully explain your proposal and how it conforms to Marion County land use regulations. This is <u>your</u> opportunity to provide detailed information on the "who, what, where, when and why" that is specific to your proposal.

There are specific criteria and regulations for each zone; these are available from the Planning Division. We strongly encourage you to obtain a copy of this information, review it, and then prepare your "applicant's statement".

These are a few items you should consider including (where applicable):

- Describe the property as it exists now and after implementation of the proposal: topography, existing structures and their use, new or alteration of structures, etc.
- Describe surrounding properties: type of land use, scale of development, etc. and any impact your proposed use might have on these properties such as dust, noise, fumes or odors, traffic, etc. And, if so, what measures will you take to mitigate these impacts?

#### **INSTRUCTIONS FOR PREPARATION OF A SITE PLAN**

Site plan must be <u>current</u>, drawn to scale, and <u>show all property lines</u>. If unable to draw to scale, property lines must still be shown noting actual dimensions or total acreage.

Failure to include all of the items listed below may delay the review necessary to obtain a permit
